

EUROPEAN CENTER FOR BLENDING OIL

ENGINEERING PERFORMANCE.
BLENDING EXCELLENCE.

Automotive Lubricants • Marine Lubricants • Industrial Oils

Blending • Manufacturing • Private Label • Packaging • Distribution

Built for Reliable Lubricant Production

European Center for Blending Oil (ECBO) is a lubricant blending and manufacturing facility serving automotive, marine and industrial markets. Our integrated capabilities cover blending, quality control, filling, packaging, finished-goods handling and dispatch.

BLENDING & MANUFACTURING

Flexible production support for a wide range of lubricant formulations and customer requirements.

PRIVATE LABEL

Contract manufacturing, filling and packaging solutions for customer-owned brands.

PACKAGING FLEXIBILITY

Multiple packaging formats designed to support different products, markets and distribution needs.

INTEGRATED OPERATIONAL FLOW

Blending → Quality Control → Filling → Packaging → Warehousing → Loading & Distribution

AUTOMOTIVE LUBRICANTS

Engine oils and automotive lubricant solutions for passenger cars, commercial vehicles and fleet applications.

- Passenger Car Motor Oils
- Heavy-Duty Diesel Engine Oils
- Transmission & Gear Oils

MARINE LUBRICANTS

Lubricant solutions designed to support marine engines and onboard machinery operating under demanding service conditions.

- Marine Engine Oils
- Hydraulic & Circulating Oils
- Gear & Machinery Lubricants

INDUSTRIAL OILS

Performance-focused industrial lubricants for machinery protection, operational reliability and demanding working environments.

- Hydraulic Oils
- Industrial Gear Oils
- Compressor & Circulating Oils

CONTROLLED BLENDING

Dedicated mixing and handling systems support organized production flow, batch preparation and consistent processing.

FILLING & PACKAGING

Flexible filling and packaging capabilities support finished products across multiple container formats and customer requirements.

PRIVATE LABEL MANUFACTURING

From product preparation to filling and packaging, ECBO supports customers seeking reliable manufacturing solutions for their own lubricant brands.

From Production Floor to Customer Delivery

Our capabilities extend beyond manufacturing to finished-goods handling, bulk and packaged-product movement, loading and distribution. We support the efficient flow of lubricants from the production facility to customers and distribution partners.

WAREHOUSING & HANDLING

Organized handling of packaged products and bulk containers.

LOADING & DISPATCH

Operational support for prepared orders and outbound logistics.

DISTRIBUTION SUPPORT

Flexible supply support for customers and distribution partners.

YOUR PARTNER IN LUBRICANT PRODUCTION
