Presents

Needs Ore Point

(Former RAF Advanced Landing Ground)

A Talk By

Marc Heighway

Marc makes a welcome return, to present his extensively researched history of the little known and short lived ALG at Needs Ore Point, on the South coast, near the mouth of Beaulieu River.

For a few short months in 1944 it was home to Hawker Typhoon's of 146 Wing, 2 TAF, during the lead up to D-Day, and their departure to Normandy.

Marc will cover the operational activity of the Squadron's, and also the personal, and often poignant, stories of those who flew and witnessed those missions.

Wednesday 3rd June

19:30 for 19:45 start

Non-members always welcome
