

How to Access your Online Gallery and Download your High-Resolution Image Files.

Gallery Access & Image Selection

1. Visit <https://michaelgelbphoto.pic-time.com> or go to www.MichaelGelbPhotography.com and select the *Client Section*.
2. Locate and open your private gallery. If prompted, enter the **PIN provided in your email** to access your images.
3. To download a **single image**, select your desired photo and click the **download icon** (downward-facing arrow).

4. To download your **full collection**, select the **download icon** at the top of your gallery and choose *Download All Photos – High Resolution*.

Multiple Selection

Download All Photos - High-Res

For single item downloads, use the download icon on each item.

Preferences >

Your images will be delivered as a **.zip file** to your device. Once downloaded, simply extract (unzip) the file to access and view your high-resolution images. Instructions for unzipping may vary depending on your device.

It is highly recommended that you download and securely store your images on multiple devices and/or cloud-based services for safekeeping.

Please note that **Michael Gelb Photography** is not responsible for lost or missing images beyond **30 days** from the date your gallery was delivered. Your online gallery will remain active for **30 days**, after which it will expire.

Kindly ensure that all images are downloaded and safely backed up prior to the expiration date.

Should you wish to extend your gallery access, extensions are available at a rate of **\$20.00 per month**.

Please contact **Michael Gelb Photography** prior to your gallery's expiration date to arrange continued access.

Purchasing Prints and Premium Products

Should you wish, you may purchase **prints and premium products** directly through your gallery for a seamless, high-quality experience. While this is entirely optional, **Michael Gelb Photography** partners with some of the finest professional print labs in the country to ensure exceptional color accuracy, detail, and longevity.

Having invested in professional photography, it is strongly recommended that your images be printed through a **professional-grade lab** to preserve their quality and artistic integrity.

Please note that **Michael Gelb Photography** cannot guarantee the quality of prints produced by third-party consumer labs and is not responsible for any discrepancies in color, clarity, or finish from such providers.

I hope you enjoy your photographs as much as I enjoyed capturing them.

Thank you for choosing Michael Gelb Photography—it was truly a pleasure working with you. I look forward to the opportunity to work together again in the future.

Thank You...
