Do you give Pamlico Community College permission to use your entry as part of the 2026 PCC AI Creativity Fest?

_____ Yes _____ No

Student Signature: _____ Date: _____

Creator Summary

Every entry must include a Creator Summary that explains the following:

- **AI Tools Used:** List each AI tool and briefly describe its role in the project (e.g., "ChatGPT - brainstorming and script writing", "DALL-E - generating initial concept art")
- **Inspiration:** What inspired your idea?
- **Sample Prompts:** Include 2-3 key prompts that shaped the work. Show how prompts evolved or improved.
- **Iteration Journey:** Screenshots or descriptions showing how the work changed between drafts. What didn't work? What improved?
- **Human Decisions:** What parts you created yourself. What did the student choose, guide, edit, or reject? How did human creativity shape the AI output?
- **Reflection:** What you learned from the process

Your summary may be provided in PDF format, delivered as video, audio, or another creative format.
