

## USER MANUAL

# ARS LIGHT Mini Heat Recovery Ventilation Unit

### 1. General Information

ARS LIGHT is a decentralized mini heat recovery ventilation unit intended for residential and commercial premises. The device removes polluted indoor air, harmful substances and allergens while supplying fresh outdoor air and recovering heat energy.

### 2. Technical Specifications

Parameter	Value
Airflow rate	18–120 m <sup>3</sup> /h
Sound pressure level	13–30 dB(A)
Number of fans	2 (supply and exhaust)
Fan power levels	LOW 5.5 W / MED 10 W / HI 18 W
Power supply	230 V / 50 Hz
Control	Remote controller with timer

### 3. Installation

The unit is installed in an external wall. Installation height should be selected to ensure effective air renewal throughout the room and user comfort.

### 4. Maintenance and Warranty

The unit is equipped with reusable filters which must be cleaned regularly. Filter inspection and cleaning are recommended every 1–3 months depending on environmental conditions. A 5-year warranty is provided if maintenance requirements are followed and factory seals remain intact.
