

soft & natural
landscape photography

Hello!

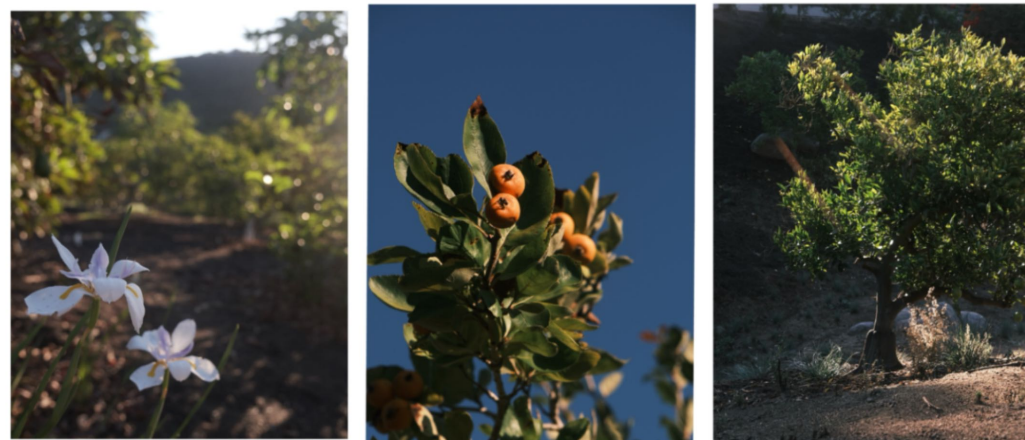

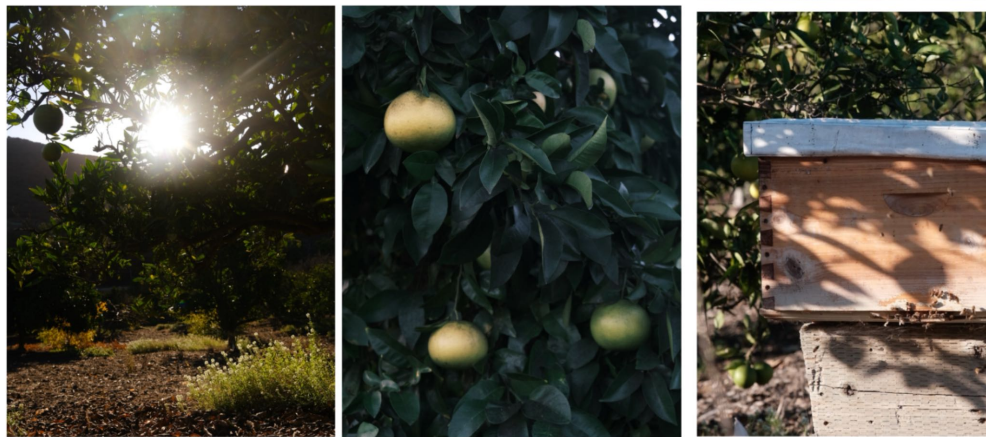

About

Hi! My name is Christina, I am a multi-faceted creative living on a 5 acre farm in North San Diego county.

I have been studying photography since I was 11 years old, but am newer to commercial work. I find beauty in soft colors, textures, and sensual imagery. It is a joy being able to capture diverse landscapes and create a cohesive story of the land.

I've had my beautiful digital Fujifilm X-T4 for 5 years now. She produces the most beautiful, soft but vibrant colorways that I find especially complimentary of landscape photography.

Flametree Farm Vista, CA

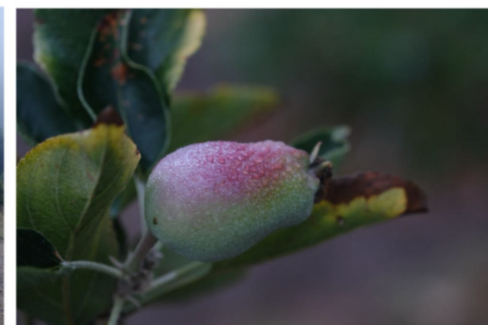

sensual
natural
details

Capturing raw beauty in
every state of being.

I emphasize lighting,
taking most photos right
after dawn.

Even on a grey foggy day
there is beauty to be
found.

No re-touching.
