Subject: Executive Leadership on Forensic Advocacy and Cold Case Reform

Dear Governor [Last Name],

I am writing to appeal to your executive leadership to address a profound issue of public safety, justice, and child protection in our Commonwealth. The case of Aundria Bowman—whose remains went undiscovered for 30 years while her killer walked free—exposes deep, systemic cracks in how our state handles missing children, domestic homicides, and long-term cold cases.

True justice requires a coordinated, top-down approach that only the Executive Branch can mobilize. We cannot rely on piecemeal responses from individual counties or municipalities when dealing with sophisticated violent offenders who exploit jurisdictional boundaries. I respectfully urge your office to take immediate executive action by prioritizing the following initiatives:

- **Establishment of a Dedicated Cold Case & Forensic Task Force:** Create a well-funded, centralized state task force equipped with advanced forensic tools, dedicated explicitly to reviewing decades-old missing children cases and matching unidentified remains.
- **Executive Backing for Child Protection Reform:** Signal your formal support for legislative measures that eliminate the systemic "runaway" classification loophole for missing youth and increase accountability for child welfare agencies.
- **Mandatory State-Wide DNA Data Submission:** Ensure that all law enforcement jurisdictions within our state are strictly mandated and fully funded to submit DNA profiles for long-term missing persons to national databases without delay.

By taking a definitive stand on forensic advocacy and cold case reform, your administration can establish our state as a national leader in protecting vulnerable youth and securing answers for families who have spent decades in agonizing limbo.

Thank you for your consideration of this urgent matter. I welcome the opportunity to speak with your policy advisors on how we can advance these vital protections.

Sincerely,

[Your Name]
