## PROJECTS

**Sales Dashboard CRM | UI/UX Design | Mobile | Figma**

- Designed a **mobile-first CRM dashboard** for lead management, meeting scheduling, and activity tracking.
- Conducted **UX research** to identify sales workflow challenges and optimize the **user flow**.
- Created **wireframes, high-fidelity prototypes, and interactive designs** for seamless navigation.
- Designed key screens: **Dashboard, Lead Management, Meeting Scheduler, and Activity Timeline**.
- Focused on **data visualization, intuitive UI, and accessibility** for an enhanced user experience.
- Incorporated modern aesthetics, smooth animations, and responsive design for usability.

**Website Design for Visa Synergy| UI/UX Design | Responsive | Figma**

- Designed a visa consultation website in Figma with a user-centric approach.
- Conducted user research to enhance usability and navigation.
- Developed CMS-friendly Country Pages for seamless content updates.
- Designed key pages: **Home, About, Contact, Admin Login, News, Blog, Country Pages, Visa Pages, and more**.
- Ensured a responsive, mobile-first UI/UX for optimal accessibility.

**Face Attendance App| UI/UX Design | Tablet, Mobile | Figma**

- Designed a **Face Attendance App** for **tablet and mobile screens**, ensuring an intuitive and seamless user experience.
- Developed key features like **Punch In/Punch Out, Visitor Entry, and Admin Login** for efficient attendance management.
- Integrated with an **employee app**, enabling users to **track attendance and work hours** in real time.
- Focused on a **responsive and user-friendly UI**, optimizing the design for both **tablet and mobile** usage.

## PROFESSIONAL EXPERIENCE

**Ui/Ux Designer Intern** — September 2024 – March 2025
*Communities Heritage Private Limited* — *Ahmedabad, Gujarat, IN*

- Designed user-centric interfaces for multiple projects, ensuring seamless user experiences.
- Created wireframes, prototypes, and high-fidelity designs in Figma, focusing on usability and accessibility.
- Conducted UX research to optimize user flows and enhance efficiency in task completion.
- Collaborated with developers, ensuring smooth design-to-development handoff and UI consistency.
- Focused on responsive design principles, modern aesthetics, and micro-interactions to improve engagement.
