

# SESAME & DERIVATIVES

## SOURCING OVERVIEW

From premium sesame seeds to value-added derivatives like tahini and oils, we connect global buyers to trusted sources delivering quality, traceability, and versatility for food, industrial, and private label applications.

## OUR SESAME SOLUTIONS

Carefully selected and cleaned sesame seeds in natural, hulled, or roasted forms. Available in white, black, and mix varieties to suit diverse culinary and industrial applications.

Smooth, creamy tahini made from 100% ground sesame seeds. A nutritious and versatile ingredient ideal for sauces, spreads, confectionery, bakery, and ready-to-eat products.

Cold-pressed and toasted sesame oils rich in natural antioxidants, omega 3, 6, and 9, and vitamin E. Perfect for cooking, dressings, and industrial formulations.

Delicious cocoa tahini spread combining sesame paste, cocoa, and natural sweeteners. A healthy, protein-rich alternative for spreads, snacks, and dessert applications.

Made from carefully toasted sesame seeds, offering a rich aroma and distinctive nutty flavor. Ideal for Asian cuisine, marinades, and flavor enhancement.

Pure sesame seed paste with a thick, rich texture. Used in bakery, halva, confectionery, sauces, and industrial food manufacturing.

### KEY BENEFITS

Nutrient-Rich Composition

Healthy Fats (Omega 3, 6, 9)
