# Wuxian Jin Jing Ultra Clear Glass

To deliver an uncompromising viewing experience, Geoda exclusively uses Wuxian Jin Jing Ultra Clear Glass, a world-class material trusted in luxury aquariums and premium architectural projects alike.

Unlike conventional glass which carries a noticeable green tint, it has an iron content of less than 150 ppm giving immense clarity allowing your fish and aquascape to be seen as they truly are

## Certified Quality

Independently tested and certified under the GB 11614-2022 national standard, Wuxian Jin Jing Ultra Clear Glass has achieved top marks across all key performance areas

Visible Light Transmission: 90.16% average

Dimensional Precision: Minimal thickness variance ( $\leq 0.2$  mm) and flawless edge quality

Strength & Stability: Meets strict benchmarks for flatness, curvature, and structural integrity
