GENERAL CHARACTERISTICS OF THE CLIMATE POSITIVE AWARDS 2023

ABOUT GREEN CROSS INTL.

- Green Cross Intl. is the Non-Governmental Organization (NGO) founded by Nobel Peace Prize laureate Mikhail Gorbachev in 1993. With over 25 years of experience, Green Cross operates and maintains a presence on six continents.
- The mission of Green Cross Intl. is to respond to the combined challenges of security, poverty, and environmental degradation in order to ensure a sustainable and secure future.
- Green Cross Intl. is an Observer Organization with consultative status at the United Nations, and as a non-profit NGO, all our actions are planned and executed for the benefit of the communities and environment.
- As a Climate Chain Coalition member –an entity linked to the UNFCCC to promote Climate Action on financial platforms based on blockchain -, Green Cross believes in circular economy models to provide the sustainability framework under a digital blockchain platform.

CLIMATE POSITIVE AWARDS – 2023

Objective of the Climate Positive Awards:

The Climate Positive Awards celebrate and recognise sustainable development initiatives by uniting key players from both the public and private sectors. We honour exemplary practices, innovative projects, and cutting-edge technologies that address global change, climate change, and human impact.

This celebration aims to highlight the remarkable efforts of innovators and fresh thinkers who are driving a positive wave towards a more sustainable and secure future.

Overview:

The Climate Positive Awards are presented to highlight the vital role that innovative sustainable solutions and dedicated efforts play in addressing global change, aiming to inspire further action, foster collaboration among diverse sectors, and enhance public awareness about the importance of sustainability in creating resilient communities and a healthier planet.

Building on this spirit, the biannual Green Star Awards—first introduced in 2009 through a collaborative initiative by the United Nations Office for the Coordination of Humanitarian Affairs (OCHA), Green Cross International (GCI), and the United Nations Environment Programme (UNEP)—serve as both a benchmark and an inspiration for the Climate Positive Awards. This initiative has established a lasting legacy of recognizing exemplary actions in environmental conservation and humanitarian efforts.

In this edition of the Climate Positive Awards 202, we have made several changes that have enriched the original framework. We appreciate your patience and understanding; sustainability is evolutionary, and flexibility is imperative.

However, what matters most is that we have responsibly fulfilled the excellence that everyone deserves.

CLIMATE POSITIVE FRAMEWORK

The Climate Positive framework was created based on the Earth Charter, a project co-led by Nobel Laureate Mikhail Gorbachev, founder of Green Cross International in 1993.

The Earth Charter is a timeless international declaration of principles and proposals that affirms the interdependence and indivisibility of environmental protection, human rights, equitable development, and peace.

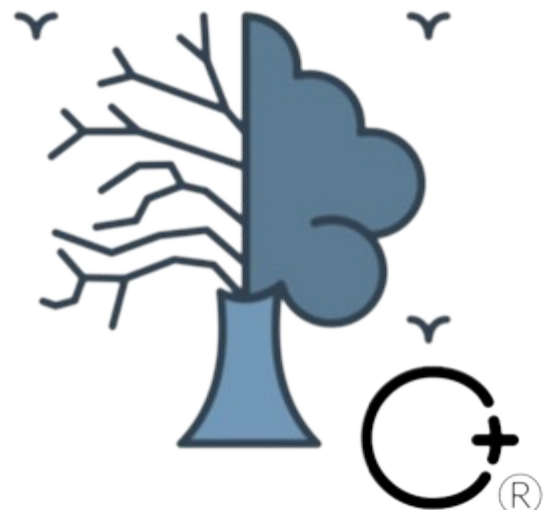

Recognizing the magnitude of Global Change, the Climate Positive movement develops a model of ascending consensual action as a community initiative for the environment, with the goal of facilitating and increasing the execution of projects that address Human Impact.

1. C+ Idea (based on ancestral knowledge):
 - Jumrot: Go above and beyond what is customary and expected.
 - Ubuntu: A positive way of life-based on the principles of commitment, community, and the common good.
2. C+ Concept:
 - Human High Development within Circular Economy.
 - Renaissance + Mitigation + Remediation + Compensation.
3. C+ Principle:

Whose axioms holistically synergize the pillars of sustainable development:

 - Make the natural world the role model.
 - Make the common good a generous virtue.
 - Make value an equal distribution.
4. C+ Charter:

Earth Charter's spinoff.

CLIMATE POSITIVE AWARDS – 2023

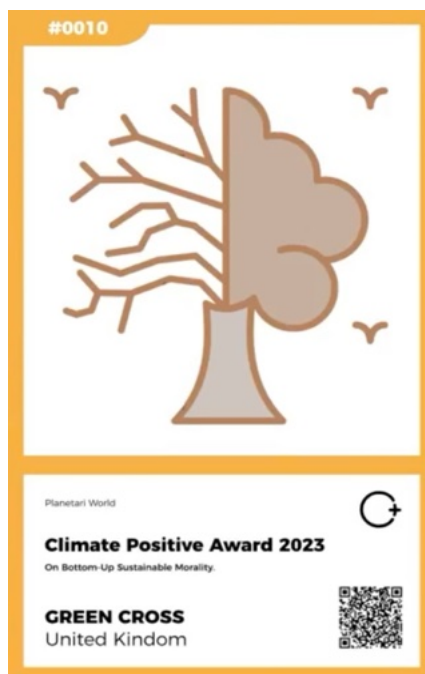

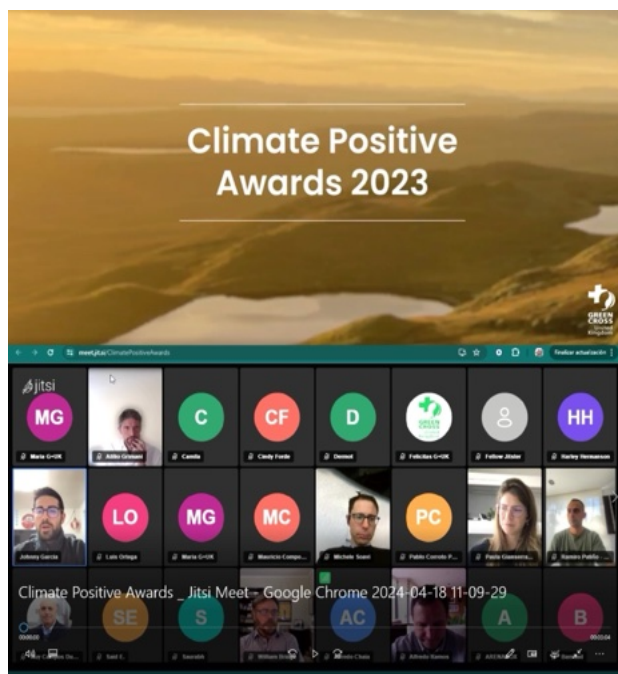

Process of Nomination and Selection for the Climate Positive Award:

- **Nomination Submission:** Organizations are nominated by members of the Green Cross community, who must provide documentation, such as testimonials, references, and details about the objectives and methodology of the positive impact projects that address Global Change.
- **Evaluation of Nominations:** A double-check of the information is conducted using public sources and verification by volunteers and AI models. This process lasts an average of six months, during which interactions with the nominated entity occur.
- **Interaction and Interviews:** Throughout this period, interviews are conducted with organizational leaders and consultations are made with stakeholders who have collaborated with the nominee to understand the impact that led to their recognition.
- **Selection Criteria:** The Jury, composed of sustainability experts, evaluates nominations based on:
 - **Strategy:** Addressing climate change through a targeted approach.
 - **OTUB:** Achievement of objectives, timelines, and budget.
 - **Innovation:** Innovative elements within the tactics.
 - **Results:** Benefits and regional or global impact.
- **Public Information:** Data may be used as case studies on the Green Cross website and in promotional materials.
- **Winner Selection:** Annually, the jury selects finalists and winners based on their expertise and knowledge in sustainability.
- **Evaluation Process Integrity:** It is essential to acknowledge that when awards are presented alongside other entities at events, the evaluation process is conducted with the same rigor and precision, supported by the event's ecosystem, ensuring impartiality and respect for all nominees, including the Winner.
- **Conclusion:** This process ensures that the Climate Positive Award recognizes entities demonstrating a strong commitment to sustainability and climate change mitigation.
