Modulación es una empresa especializada en la fabricación de baños industrializados para proyectos de edificación.

Aplicamos principios de industrialización, precisión y control de calidad propios de la industria, trasladando la fabricación del baño desde la obra tradicional a un entorno productivo controlado.

Nuestro equipo acumula más de 25 años de experiencia en el sector de la construcción, habiendo participado en toda la cadena de valor: desde la producción de materiales y componentes hasta la promoción, el diseño y la ejecución de obra.

Hoy esa experiencia se materializa en más de 5.000 m² de instalaciones industriales, desde donde fabricamos baños modulares con estándares de precisión, control y eficiencia propios de la industria.

Una capacidad técnica y productiva que nos permite responder con solvencia a las exigencias de cualquier proyecto, industrializando uno de los espacios más complejos del edificio: el baño.

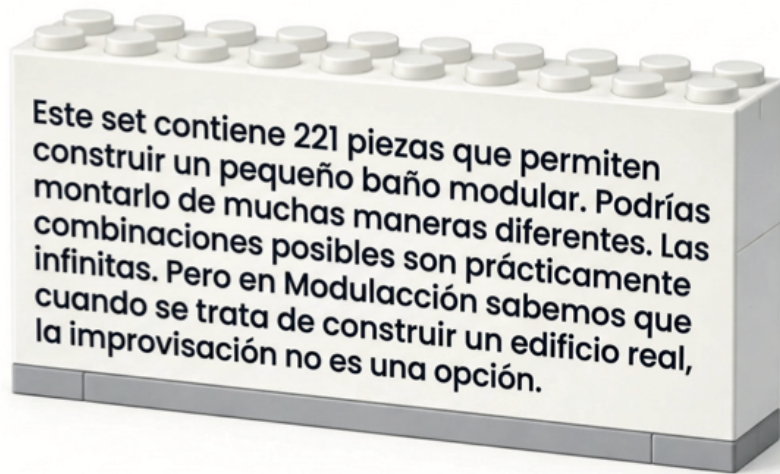

Esta experiencia nos permite replantear uno de los espacios más complejos del edificio —el baño— y transformarlo en un producto industrial plug & play, fabricado en fábrica, transportado a obra e instalado en pocas horas.

El resultado:

- mayor control de calidad
- reducción de plazos de obra
- menos incidencias
- mayor eficiencia constructiva

Porque creemos que la construcción también puede fabricarse con precisión industrial.

Fabricar baños industrializados no es un juego... pero montar este sí lo es.

Por eso seguimos un proceso muy claro:
diseñamos el módulo
lo fabricamos en un entorno industrial
lo transportamos a obra
lo instalamos con precisión

Cada proyecto tiene sus particularidades, igual que cada construcción con estas piezas puede ser distinta.

Pero siempre hay algo que no cambia:

el método

la planificación

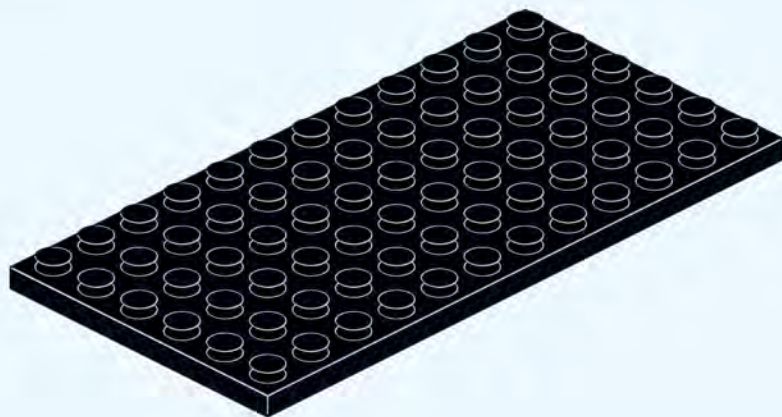

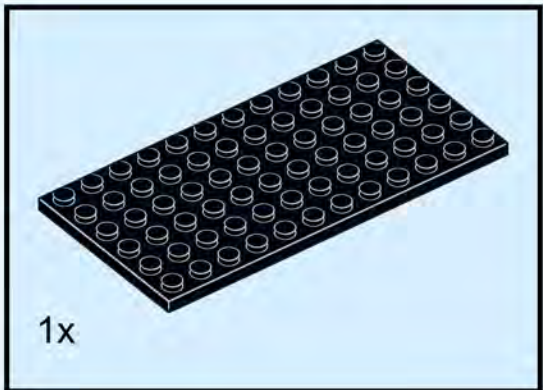

resultado final.

Aquí tienes las instrucciones para montar este baño. No siempre lo tendrás tan sencillo. Así que cuando quieras un baño industrializado nosotros conocemos las instrucciones y el proceso correcto.

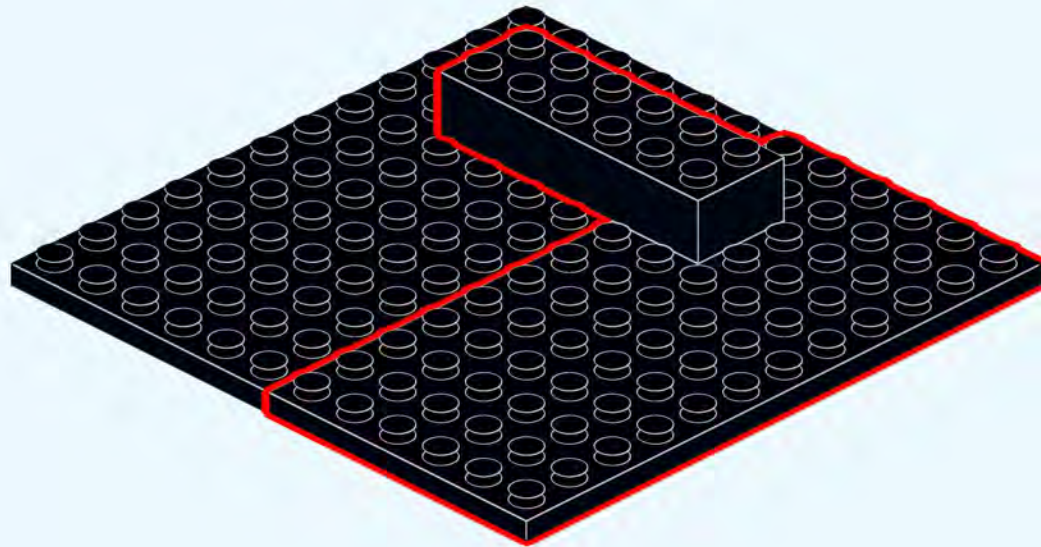

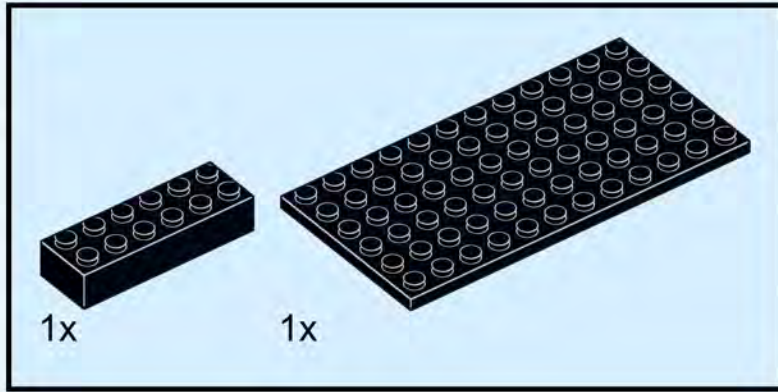

**Aunque debemos reconocer algo...
Es muy gratificante acompañar a
nuestros clientes en cada proyecto
hasta ver el baño terminado.**
