

EliGuard

Alkaline Concentrated Multi-purpose, Perfumed Detergent and Disinfectant.

PRODUCT OVERVIEW

EliGuard is a concentrated, alkaline, high-strength foaming cleaner and disinfectant, specifically formulated for the effective cleaning and disinfection of a wide range of hard, washable surfaces. Its advanced formulation combines powerful detergency with reliable antimicrobial activity, ensuring the efficient removal of organic soils while reducing microbial contamination.

EliGuard delivers consistent bactericidal and virucidal performance, making it suitable for routine hygiene programs as well as high-risk areas where cross-infection may occur. After application, treated surfaces are left hygienically clean with a fresh, pleasant fragrance, supporting improved cleanliness standards and user confidence.

FEATURES & BENEFITS

- **Concentrated multi-purpose detergent and disinfectant** providing effective cleaning and antimicrobial performance with economical dilution.
- **Effective against a broad range of bacteria and yeast**, supporting high hygiene standards on treated surfaces.
- **Effective against enveloped viruses**, enhancing infection control in high-risk areas.
- **Alkaline, high-strength foaming formulation** for improved soil removal and surface contact.
- **Suitable for a wide range of hard washable surfaces**, including floors, equipment, and vehicles.
- **Leaves a clean, fresh fragrance after application.**
- **Ideal where there is a risk of cross-infection**, supporting routine hygiene and biosecurity programs.

STRENGTH YOU TRUST AGAINST CROSS-INFECTION

EliGuard

PRODUCT DETAILS

Composition

Quaternary ammonium compound (Alkyl dimethyl benzyl ammonium chloride), sequestering agent, ethoxylated amine, non-ionic surfactants, perfume & dye.

Form

Liquid concentrate

Appearance

Yellow liquid with a pleasant, fresh fragrance

pH: < 11

Fragrance: Floral

Packaging

Available in 5L and 20L Jerrycan suit agricultural and industrial requirements.

RECOMMENDED USES

- Poultry and livestock farms
- Animal housing and barns
- Vehicles and transport equipment
- Farm tools and equipment
- Hard washable surfaces in agricultural and industrial environments

It is an essential component in controlling infectious diseases within farm operations through regular cleaning and disinfection programs.

SAFETY INFORMATION

Operator Safety:

Always wear gloves, protective eyewear, and a mask during handling and application.

Avoid contact with skin and eyes; use appropriate personal protective equipment (PPE).

Refer to the Safety Data Sheet (SDS) for detailed safety and handling instructions.

First Aid Measures:

- In case of skin contact, wash with soap and water.
- In case of eye contact, rinse immediately with plenty of water and consult a physician.

DIRECTIONS FOR USE

Infection Control – Disinfection of Hard Surfaces & Equipment

- Dilute EliGuard concentrate with clean water in a spray bottle or bucket:
 - Virucidal applications: 50 ml per 750 ml diluted solution (1:15)
 - Bactericidal applications: 30 ml per 750 ml diluted solution (1:25)
- Thoroughly clean surfaces before applying the disinfectant.
- Apply the diluted solution by spray, clean cloth, or mop, ensuring complete surface coverage.
- Leave the product on the surface for the required contact time to achieve effective disinfection.
- Wipe with a clean cloth and allow surfaces to air dry.

General Cleaning (Non-Disinfection)

- Dilute 1:50 with clean water (100 ml per 5 L of diluted solution).
- Mop or wipe the surface as required.
- To prevent chemical build-up, surfaces should be periodically washed with clean water.
- After use, cloths and mops should be rinsed in a fresh solution of EliGuard and allowed to air dry.

STORAGE AND DISPOSAL:

Storage:

Store in a well-ventilated area at temperatures not exceeding 30°C away from direct sunlight and incompatible materials.

Keep out of reach of children and unauthorized personnel.

Disposal:

Dispose of used containers and residues in accordance with local regulations.

**POWERFUL CLEANING.
RELIABLE PROTECTION.**
