

# EliGuard Extra

## One-Step Disinfectant, Germicidal Detergent, and Deodorant

### PRODUCT OVERVIEW

EliGuard Extra is a highly effective one-step disinfectant, germicidal detergent, and deodorant. Formulated with a synergistic quaternary ammonium blend (5th Generation quat.), it effectively kills a wide range of bacteria and yeast and controlling mold and mildew on hard, non-porous environmental surfaces.

Its neutral pH makes it suitable for routine cleaning, disinfecting, and deodorizing in one operation, saving time and reducing the need for multiple products.

EliGuard Extra is compatible with multiple surfaces and is safe for all hard, water-washable surfaces. It leaves a clean, fresh, and pleasant floral fragrance.

### FEATURES & BENEFITS

- **Broad-spectrum germicidal:** Kills bacteria, yeast, and other harmful microbes
- **One-step operation:** Cleans, disinfects, and deodorizes simultaneously
- **Highly efficacious synergistic quaternary blend (5th Generation quat.)** kills a wide range of bacteria and yeast.
- **Neutral pH:** Safe on multiple surfaces
- **Easy to use:** Suitable for spray, mop, immersion, or auto scrubbers
- **Fresh fragrance:** Leaves a clean, floral scent
- **Time and cost-efficient:** Reduces inventory and application time

**CLEAN. DISINFECT. DEODORIZE.  
ALL IN ONE**

# EliGuard Extra

## PRODUCT DETAILS

### Composition

5th Generation Quaternary ammonium compound (Blend of Alkyl dimethyl benzyl ammonium chloride and Didecyl Dimethyl Ammonium Chloride), sequestering agent, ethoxylated amine, non-ionic surfactants, perfume & dye.

### Form

Liquid concentrate

### Appearance

Green liquid with a pleasant, fresh fragrance

**pH:** Neutral

**Fragrance:** Floral

### Packaging

Available in 5L and 20L Jerrycan suit agricultural and industrial requirements.

## RECOMMENDED USES

- Poultry and livestock farming operations
- Animal housing units, sheds, and barns
- Farm vehicles and transport equipment
- Agricultural tools and operational equipment
- Hard, water-washable surfaces in agricultural and industrial settings

EliGuard Extra is a vital element in effective biosecurity programs, supporting the control and prevention of infectious diseases through routine cleaning and disinfection practices across farm operations.

## STORAGE AND DISPOSAL:

### Storage:

Store in a well-ventilated area at temperatures not exceeding 30°C away from direct sunlight and incompatible materials.

Keep out of reach of children and unauthorized personnel.

### Disposal:

Dispose of used containers and residues in accordance with local regulations.

## DIRECTIONS FOR USE

### Disinfecting Hard Surfaces & Equipment

1. Pre-clean heavily soiled areas.
  2. Dilute 1 part EliGuard Extra to 32 parts water (1:32).
  3. Apply solution using a sponge, brush, cloth, mop, immersion, auto scrubber, or trigger spray device.
  4. Spray 6–8 inches from the surface. Avoid inhalation of spray.
  5. Keep surfaces wet for 10 minutes.
  6. Wipe dry or allow to air dry. Rinsing is not necessary unless surfaces are to be waxed or polished.
- Prepare a fresh solution daily or when visibly dirty.

### General Cleaning (Non-Disinfecting)

1. Dilute 1 part EliGuard Extra to 50 parts water (100 mL per 5 L solution).
2. Mop or wipe surface as required.
3. Periodically wash surfaces to prevent chemical build-up.
4. Rinse cloths/mops in fresh EliGuard Extra solution and allow to air dry.

## SAFETY INFORMATION

### Operator Safety:

Always wear gloves, protective eyewear, and a mask during handling and application.

Avoid contact with skin and eyes; use appropriate personal protective equipment (PPE).

Refer to the Safety Data Sheet (SDS) for detailed safety and handling instructions.

### First Aid Measures:

- In case of skin contact, wash with soap and water.
- In case of eye contact, rinse immediately with plenty of water and consult a physician.
