

# FARM - LSP

Multipurpose Farm Disinfectant

Ideal for disinfecting farm buildings, animal housing, surfaces, equipment, and foot dips.

Effectively kills a wide range of disease-causing pathogens affecting farm animals, including Mycobacterium (the causative agent of tuberculosis) and the Infectious Bursal Disease Virus (IBDV).

A synergistic blend of synthetic phenolics, specifically formulated to offer flexible application with broad-spectrum efficacy against viruses, bacteria, and fungi across a wide range of temperatures and in the presence of organic matter.

**INSTRUCTIONS FOR USE**

Prior to any disinfection stage of a biosecurity programme, ensure that all surfaces and equipment have been thoroughly cleaned, then rinsed with clean water and allowed to dry, prior to applying disinfectant solution.

USE	DILUTION RATE	APPLICATION
Routine general pre-cleaned surface disinfection	1:400 - 1:200 (50-25ml of FARM LSP concentrate per 10 litres of water)	In conditions of low soiling and temperatures of 20°C and above, apply at 1:400. For all other conditions, use at 1:200. Using a pressure washer or other mechanical sprayer, apply FARM LSP solution at a rate of 300 ml/m <sup>2</sup> (or to the point of "run-off). Allow a contact time of 10 to 30 minutes. Leave to dry. Equipment may be dipped in FARM LSP solution for a maximum of 60 minutes.
Routine disinfection of moveable equipment General equipment	1:200 (50ml of FARM LSP concentrate per 10 litres of water)	
Surfaces, equipment, boot dip & vehicle wheel spray disinfection	1:200 (50ml of FARM LSP concentrate per 10 litres of water)	Replace the disinfectant when soiled, or more frequently if heavy traffic is encountered. Do not exceed 7 days.
Disease Challenge Situation	1:100 (100ml of FARM LSP concentrate per 10 litres of water)	Use as instructed as per the routine general farm application guide above.

**PRECAUTIONS**

Not suitable for use in dairy or milk production/handling facilities, due to the risk of milk taint.

**USE BIOCIDES SAFELY, ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.**

Always contact with the eyes and skin during the handling of this product.

Do not breathe spray mist (wear a mist respirator at all times during the application process).

Wear suitable personal protective clothing including; waterproof coveralls, gloves and boots, and face protection.

Do not allow product to enter water-courses.

Keep out of reach of children.

Always refer to the Material Safety Data Sheet (MSDS) for details on product specific health and safety prior to use.

Rinse all application equipment with clean water after use.

**FIRST AID MEASURES**

General advice: Never give anything by mouth to an unconscious person. When symptoms persist or in all cases of doubt seek medical advice. Inhalation: Remove from exposure, lie down. If victim has stopped breathing: Artificial respiration and/or oxygen may be necessary. Consult a physician. Skin contact: Take off all contaminated clothing immediately. Wash off immediately with plenty of water. Wash contaminated clothing before re-use. Consult a physician.

Eye contact: Rinse immediately with plenty of water and seek medical advice. Ingestion: Do NOT induce vomiting. If conscious, drink plenty of water. Call a physician immediately.

**STORAGE** Store closed containers in a cool place away from other products. Unused diluted solution can be stored for up to one week.

**DISPOSAL:** Unused solutions may be disposed of by diluting small quantities with water and discharging them into wastewater systems, such as sinks and drains connected to the municipal sewer system, in accordance with local authority regulations. Always follow regional environmental and safety guidelines for proper disposal.

**DANGER**

Biocidal Actives biphenyl-2-ol (120g/Kg), 4-Chloro-3,5-dimethylphenol (120g/Kg)

**HAZARD STATEMENT:**

May be corrosive to metals. may be harmful if swallowed. Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause respiratory irritation. Toxic to aquatic life with long lasting effects.

**PRECAUTIONARY STATEMENTS:**

Keep only in original packaging. Avoid breathing dust/ fume/ gas/ mist/ vapours/ Spray. Wash skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF INHALED: Remove person to fresh air and keep comfortable for breathing. - Immediately call a POISON CENTER/doctor. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. Absorb spillage to prevent material damage. Collect spillage. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container to an approved waste disposal plant.
