About Us

Founded in May 2023 and headquartered in Jenjarom, Selangor, MYOSHA Industrial Training Sdn Bhd is Malaysia's premier one-stop provider for Occupational Health & Safety (OSH) training and consultancy. With HRD Corp registration and a team of experienced safety professionals, we deliver customised training programs, expert consultancy, and safety technology solutions tailored for multiple industries. Driven by our core values of Responsibility, Accountability, Excellence, Suitability, and Integrity, our mission is to elevate workplace safety standards and build a culture of compliance and care across Malaysian organisations.

Vision

To be Malaysia's leading and most trusted one-stop Occupational Safety & Health (OSH) training and consultancy provider, recognized for elevating industry safety standards, shaping safety culture, and delivering sustainable impact across sectors through tailored, expert-driven solutions

Mission

Foster continuous improvement through integrity, accountability, responsibility, excellence, and suitability ensuring services and products remain relevant, ethical, and impactful for diverse industry needs

What We Do

At MYOSHA Industrial Training Sdn Bhd, we provide comprehensive Occupational Safety & Health (OSH) training, consultancy, and solutions to help businesses comply with regulatory requirements and create safer, more productive workplaces

MYOSHA ORGANIZATION CHART

Health, Safety, and Environmental Commitment

At Arowwai Industries, our commitment to health, safety, and environmental (HSE) excellence is fundamental to our operations and integral to our corporate values. We prioritize the well-being of our employees, communities, and the environment through rigorous standards and proactive measures. Here's how we uphold our HSE commitment:

EHS Training

(OSH) Coordinator-Competency

Chemical Safety & Handling

HIRARC (Hazard Identification, Risk Assessment, and Risk Control)

Hearing Conservection

Forklift Competency

First Aid ,AED

Mobile Crane/Overhead

LOTO (Lockout/Tagout)

Noise, Heat Stress, and Indoor Air Quality Awareness

Scheduled Waste Management

ISO 14001: Environmental Management System (EMS) Awareness

ESG (Environmental, Social & Governance)

Electrical Safety

Safety Pole

Working At Heights

Lifting Supervisor -Competency

Ergonomics musculoskeletal disorders (MSDs)

ERP & Emergency Drill

Confine Space

Scaffolding Compentecy

EHS MONITORING

Chemical Health Risk Assessment (CHRA)

Heat Stress Assessment

Respiratory Fit Test & Airborne Particulate Monitoring

Stack Emission Monitoring

Chemical Exposure Monitoring (CEM)

Local Exhaust Ventilation (LEV) Testing

Water Quality Analysis (Drinking & Process Use)

Wastewater Quality Assessment

Noise Risk Assessment (NRA)

Lighting Level Assessment
(Illuminance Study)

Vibration Exposure Assessment
(Hand-Arm/Whole Body)

Hazardous Waste (Scheduled Waste)
Compliance Audit

Audiometric Testing (Hearing Conservation)

Ergonomic Risk Assessment (ERA)

Electromagnetic Field (EMF) Assessment

Permit-to-Work (PTW) System
Audit

Indoor Air Quality (IAQ) Assessment

Biological Hazard Assessment

Welding Fume Exposure Assessment

Scaffolding 1,2,3 Inspection

Chemical Health Risk Assessment (CHRA)

The Chemical Health Risk Assessment (CHRA) is a mandatory assessment under Malaysia's Occupational Safety and Health (Use and Standards of Exposure of Chemicals Hazardous to Health) Regulations 2000. At MYOSHA Industrial Training Sdn Bhd, we offer DOSH-registered CHRA services to help employers evaluate and control chemical exposure risks in the workplace.

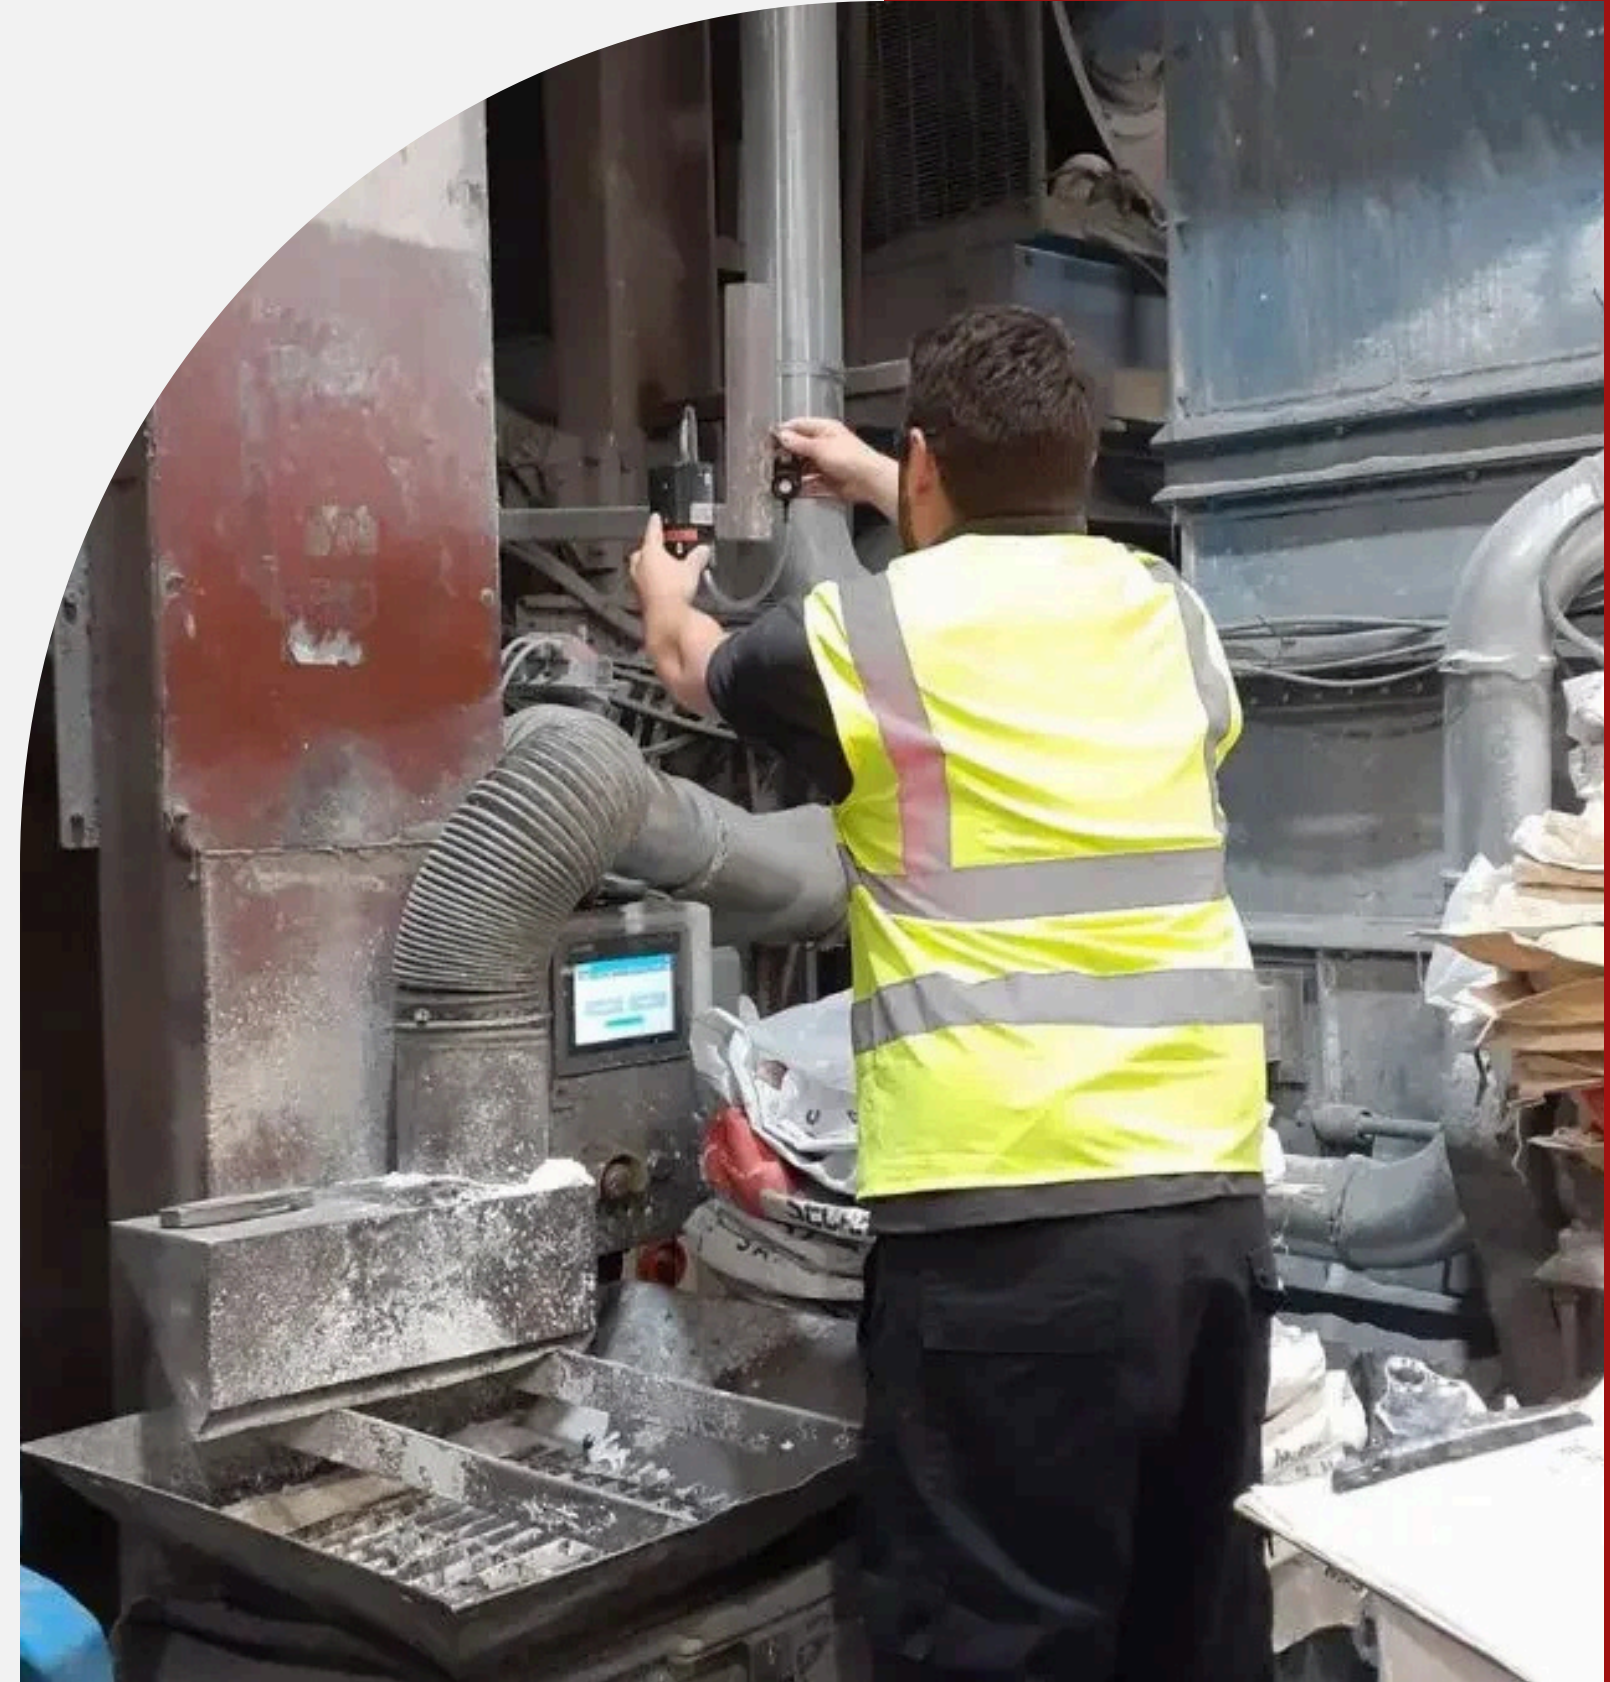

Noise Risk Assessment (NRA)

The Noise Risk Assessment (NRA) is a mandatory evaluation required under the Factories and Machinery (Noise Exposure) Regulations 1989 and Occupational Safety and Health Act (OSHA) 1994. It determines the extent of employees' exposure to workplace noise and ensures proper control measures are implemented to prevent Noise-Induced Hearing Loss (NIHL).

Local Exhaust Ventilation (LEV) Testing

LEV Testing is a critical assessment required to ensure the effectiveness of systems designed to capture and remove airborne contaminants (dust, fumes, vapours, and gases) at the source before they enter the breathing zone of workers. It is mandatory under Malaysian OSHA 1994 and USECHH Regulations 2000 for workplaces using chemicals hazardous to health (CHTH).

Ergonomic Risk Assessment (ERA) & Advance (AERA)

The Ergonomic Risk Assessment (ERA) is a structured evaluation of workplace ergonomics aimed at identifying and controlling risks that may cause musculoskeletal disorders (MSDs). For higher-risk or complex work environments, the Advanced ERA (AERA) provides a more in-depth analysis using specialized tools, data-driven methods, and engineering-based solutions.

Both ERA and AERA are aligned with the OSH Act 1994, supporting proactive injury prevention and productivity enhancement in workplaces.

Air Stack Monitoring

Stack Emission Monitoring is a mandatory environmental compliance activity required by the Environmental Quality (Clean Air) Regulations 2014 under the Environmental Quality Act 1974 (EQA). It involves measuring and analyzing pollutants emitted from industrial stacks or chimneys to ensure emissions are within limits set by the Department of Environment (DOE).

Scaffolding inspection level 2 & level 3

Scaffolding inspection tagging is a crucial part of scaffold safety management. It involves the use of color-coded tags to indicate the status, safety, and usability of scaffolding structures at the worksite. This process ensures that only inspected and safe scaffolds are used, reducing the risk of falls and structural failures.

Tuan,

KELULUSAN PROGRAM PENDIDIKAN BERTERUSAN (CEP)

Adalah saya dengan hormatnya merujuk kepada perkara di atas.

2. Dengan kuasa-kuasa yang diberikan kepada saya di bawah Peraturan-peraturan Keselamatan dan Kesihatan Pekerjaan (Pegawai Keselamatan dan Kesihatan), 1997 saya dengan ini bersetuju untuk meluluskan program sepertimana yang disenaraikan di bawah sebagai 'Program Pendidikan Berterusan' secara atas talian bagi maksud untuk memperbaharui pendaftaran Pegawai Keselamatan Dan Kesihatan.

Tajuk : HAZARD IDENTIFICATION ,RISK ASSESSMENT & RISK CONTROL (HIRARC)-NEW REVISION
Tarikh : 27/02/2025 - 28/02/2025
Tempat : Zoom
No. Rujukan : HQ/14/2025/00033
Jumlah Mata : 10

3. Dimaklumkan dengan ini tuan adalah dibenarkan menjalankan kursus yang tersebut di atas dengan syarat berikut:

- i. Kelulusan ini adalah **terpakai** bagi program yang akan dijalankan **pada tahun yang sama** dengan syarat maklumat-maklumat program adalah tidak berubah;
- ii. Program yang akan dianjurkan mestilah mengikut modul dan tenaga pengajar yang telah dikemukakan, disemak dan telah diluluskan oleh Jabatan ini. Sebarang pertukaran pada modul atau penceramah perlu mendapat kelulusan yang baharu;
- iii. Senarai lengkap nama dan no. kad pengenalan Pegawai Keselamatan dan Kesihatan yang berdaftar yang menghadiri kursus ini sahaja hendaklah dikemukakan kepada Jabatan ini untuk tindakan tuan dalam tempoh 2 minggu selepas program selesai dijalankan;
- iv. Pihak tuan dikehendaki mempamerkan **no. rujukan dan jumlah mata** pada sudut kiri sebelah bawah sijil kehadiran yang akan dikeluarkan. Dimaklumkan hanya satu (1) sijil sahaja boleh dikeluarkan pada setiap peserta;
