

U.S. Bank Smart Assistant®

**Smart.
Simple.
Secure.**

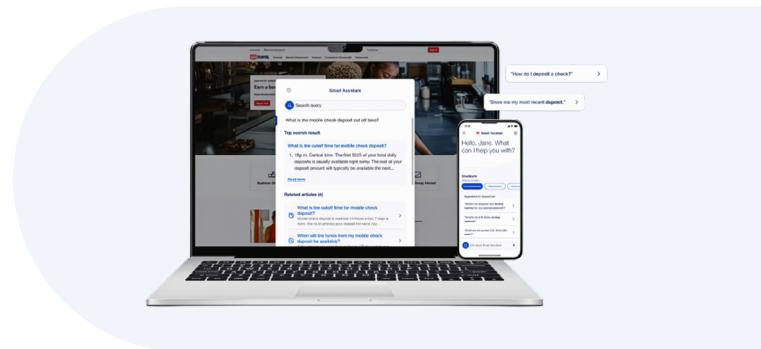

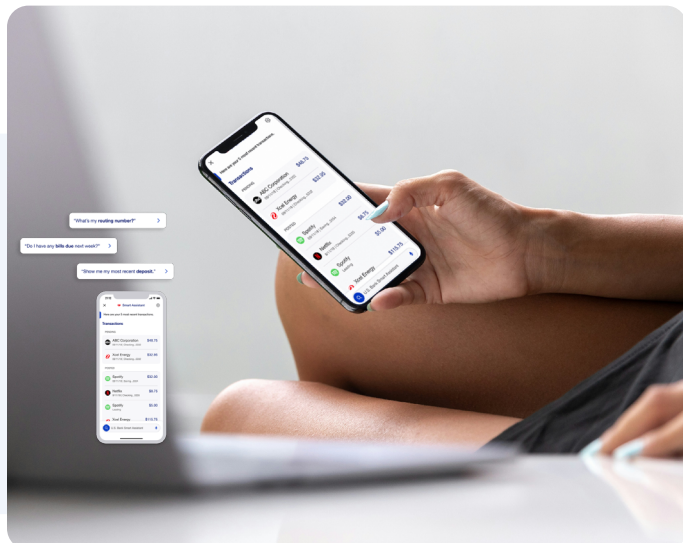

What is U.S. Bank Smart Assistant®?

The U.S. Bank Smart Assistant is a virtual helper built into the U.S. Bank Mobile App and online banking. It allows you to manage your money using simple voice commands or typed messages instead of navigating through menus.

You can use it to instantly:

- Check account balances and transactions.
- Transfer money between your accounts.
- Pay bills or send money to others using Zelle®.
- Lock or unlock your debit/credit cards.
- Find your account numbers or locate nearby ATMs.

Essentially, it's a fast, convenient, and hands-free way to handle everyday banking tasks 24/7.

How can Smart Assistant help?

It reduces steps and saves you time. At any time of the day, your Smart Assistant can help you quickly find answers, find what you need and complete everyday banking tasks. It can also get you in touch with the right contact if you need additional help.

Quickly find answers.

Say or type:

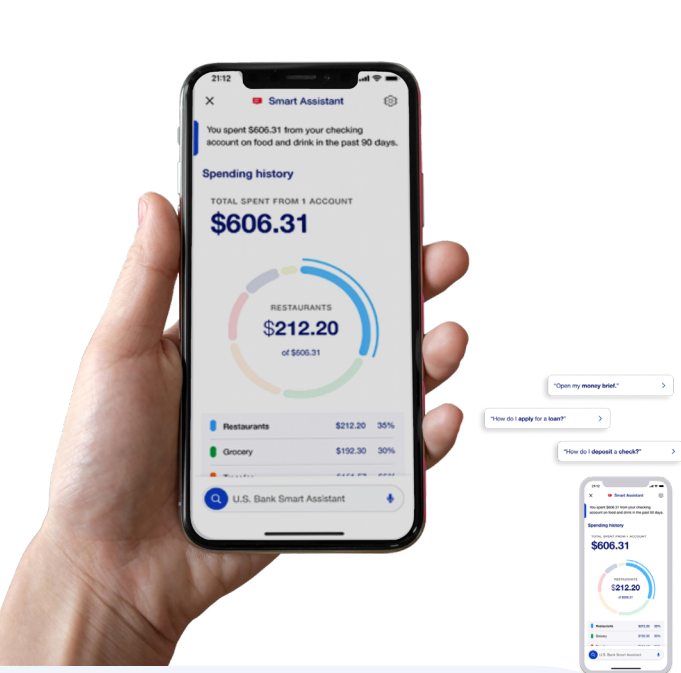

“What’s my routing number?”

“What’s my credit score?”

“How much was my last deposit?”

“Do I have any bills due next week?”

“What did I spend at Target last month?”

Find what you need – fast.

Say or type:

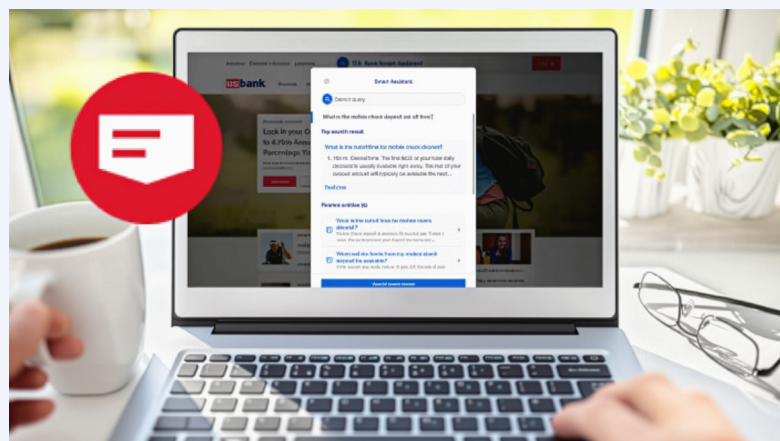

“Activate my credit card.”

“I’d like to set a travel notification.”

“Where is the closest U.S. Bank ATM?”

“I want to apply for a loan.”

“How do I deposit a check?”

Complete everyday banking tasks.

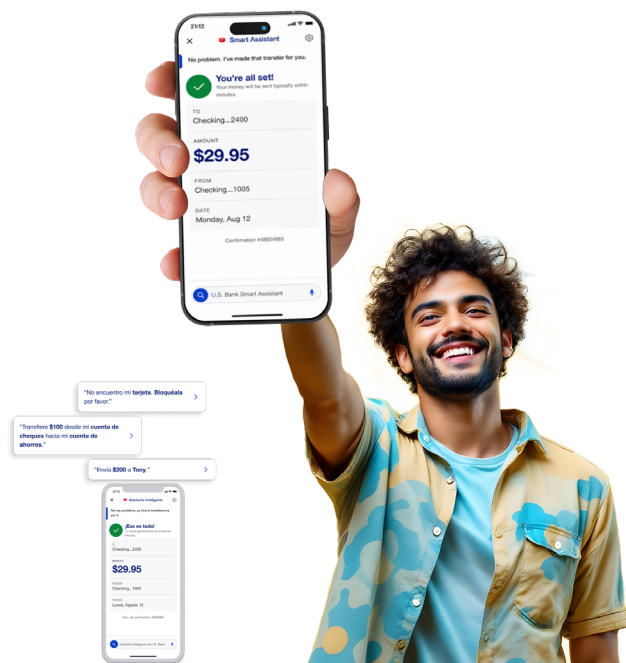

Say or type:

“Pay the statement balance on my credit card.”

“Send 200 bucks to Tony.”

“Transfer \$100 from savings to checking.”

“My debit card is missing. Please lock it.”

Give it a try.

Look for the red Assistant icon in the U.S. Bank Mobile App or sign up for online banking to get started.
