Australian Citizen - MIEAust

ENGINEERING, DIGITAL PLATFORMS & DATA SYSTEMS

Technology and engineering leader with global experience integrating industrial operations, digital platforms, and enterprise data capabilities. Background spanning engineering leadership, digital product development, analytics initiatives, and enterprise data strategy across complex operational environments.

CORE AREAS

Industrial Systems Leadership
Digital Product Platforms
Data & AI Enablement
Engineering-Software Integration
Operational Analytics
Technology Strategy & Execution

PROFESSIONAL EXPERIENCE

Schlumberger (SLB) — Global Energy & Industrial Technology Company

Division Data Manager — Global Technology and Data Strategy

Houston, USA | 2023 – 2025

Led data strategy and governance initiatives enabling structured data foundations for analytics and digital platforms across global industrial operations.

Programme Manager / Data Lab Manager — Applied Analytics and Innovation

Cambridge, UK | 2018 – 2023

Managed multidisciplinary teams delivering analytics and machine-learning solutions supporting engineering workflows and operational performance.

Product Manager — Digital Engineering Platforms

Houston, USA | 2014 – 2018

Led development of integrated hardware-software platforms translating engineering workflows and operational data into scalable digital tools.

Engineering & Field Operations Leadership — Industrial Systems

Australia & Global | 1997 – 2014

Progressive engineering and leadership roles spanning field operations, and regional engineering management supporting complex industrial operations.

EDUCATION & EXECUTIVE DEVELOPMENT

MSc, Sustainable Development — University of Sussex (in-progress)
BEng, Electronics Engineering — Universidad Santo Tomás (Engineers Australia, MIEAust)
Executive Education: MIT (AI Strategies & Roadmap), UC Berkeley (Data Strategy)
