WHY VIZAG?

“Because the Future is Shifting Here.”

“A city transforming into India’s next global tech powerhouse.”

HITEC City began as a small idea in 1995 — and grew into India’s leading IT powerhouse.

Vizag is now at the same breakthrough moment — with major tech and infrastructure investments powering its rise.

"As AI adoption accelerates and data consumption soars, specialised data-centre land in strategic hubs like VIZAG is expected to command a premium. Early investors stand to benefit from both operational demand and capital appreciation."

"Peram's Aditya Aishwarya Grand gives you a rare combination – scale, location and timing – all aligned with the new AI-first economy."

“

"Backed by multibillion-dollar commitments from global and Indian tech players, Andhra Pradesh – especially VIZAG – is being positioned as a long-term data-centre cluster."

"A LAND INVESTMENT
TUNED TO THE AI ERA"

About

Investment in plots has several benefits and no one can deny this fact but it requires careful consideration of a number of factors to shun mistakes and avoid disappointment and regret in future. To buy a plot is one of the most important decisions that one makes in a lifetime. One can enjoy its benefits in the short term as well as long term. As Vizag is expanding its boundaries and embracing the areas on the fringes, one gets ample opportunities to invest in residential plots at affordable prices.

After finalizing the location of investment, one should look out for a reliable and trusted developer who excels in residential plotting layouts. A deal with a trusted developer will save you from getting duped or becoming the target of fraudulent practices and one such name is PERAM GROUP, a trusted plots developer with a long history of customer satisfaction in developing plots. In this way, you can kill two birds with one stone. You deal with a reliable source and you also invest in a government-approved layout.

PERAM GROUP is one of the leading real estate companies that specialize in plotting and construction. They are very popular in open residential plots. Plotting by PERAM GROUP is done at fast growing places and in ideal locations where development picks up at a quick pace. Selection of location depends on the infrastructural development of a place and PERAM GROUP are very good at their job. They also help in getting a bank loan to purchase a plot. One can buy a plot from PERAM GROUP and be assured that one will never regret this deal. Land investment is a way to generate profits over a period of time but some common mistakes can foil your dream. Do enough research before the deal, invest in the ventures of PERAM GROUP and shun mistakes when you buy a plot.
