The Truth about Marriage & Relationships

Many universal laws govern our lives. These laws operate regardless of whether we believe in or understand them. A prime example is the Law of Gravity, a universal principle that has always existed but remained undiscovered until Isaac Newton identified it in 1665. It is now universally accepted, although many do not understand how it functions, nor is it detectable by any of our human senses. The Law of Attraction is another such law that has recently gained attention and is now widely accepted.

At Truths for Thought, we believe there is one law, yet undiscovered, that we have chosen to call the “Law of Expectations,” a universal principle that has existed since the dawn of mankind and has continuously influenced our lives. It is straightforward, affects everyone, and if properly implemented, can transform anyone's life, marriage, and relationships.

Join “Our Best for Him” as “Truths for Thought” introduces you to this universal law and shares how to apply it to your life in general and your marriage in particular.
