

Raise Your Voice (Song for Hebburn)

S/A Where the river bends and once our ships were built
Our silent yards lay cold, once tears were spilt
Through changing times, we still stand proud
And we now find our way
With voice strong, we've seized the day

All: By the riverside where now the sun shines bright
No longer silent, our youth have found their light
Side by side we sing together
Ev'n through joy and rain
We find our voice, we rise again

Raise your voice, let it rise and fill the air
Sing our story loud and proud for all to share
Feel the echoes rolling on from shore to shore
Hebburn's heart will keep on singing evermore
Raise your voice!
La la la la la, la la la la la la la la la la

Where voices blend and harmony takes flight
We share our song together through the night
Through melody we sing as one
And hand in hand we sway
With voices strong, we know the way

Raise your voice, let it rise and fill the air
Sing our story loud and proud for all to share
Feel the echoes rolling on from shore to shore
Hebburn's heart will keep on singing evermore
Raise your voice!
La la la la la, la la la la la la la la la la

Through the seasons, through the years
Our stories woven, hopes held near
Together we can make our dreams come true
We sing of laughter, joy and pain
We come together, sun or rain
Our hearts beat on together through the crowd

Raise your voice, let it rise and fill the air
Sing our story loud and proud for all to share
Feel the echoes rolling on from shore to shore
Hebburn's heart will keep on singing evermore
Raise your voice!
La la la la la, la la la la la la la la la la

Raise your voice!
