

Dear Brothers and Sisters in the Lord,

Greetings from chilly Santa Cruz, Bolivia where the temperature is 8 degrees Celsius!

Two days ago, I arrived from the last riverboat trip on the Bernabe and Libertador 3; the boat ministry of the Cumpliendo Promesas Foundation. Thank God, everything went well. Praise God!

Over the two-month season, we have completed seven different trips. We had over fifty volunteers, and sponsored professionals. We have visited over thirty villages, and distributed a good number of medications, books, tracts, food, clothing, and Bibles. Our team members were doctors, dentists, nurses, vets, etc. Hundreds of people heard the gospel. Many accepted the Lord as their Savior including three of the doctors that we hired and one dentist. Praise God!

It was great that there was a high-water level on the river so that we could visit every village along the way. We were excited to visit previously established churches in the villages and encourage them in the faith. The Lord added more people to His church in every place. Praise God!

We were able to donate medications for the future needs of the villagers. Also, we set up one library in one of the churches. It was very good to see the children and adults reading Christian literature and the Bible. Praise God!

Thank you for all of your prayers, support, and being a part of the team. We would also like to thank the professionals who joined our team to help those in need. Moreover, we are grateful for those who have sponsored a professional to participate in the boat ministry activities. Thank you so much.

His servants to Bolivia,
Enoel and Leisa Suarez
