

Dear Brothers and Sisters in Christ,

We are writing a short update to share several things with you. After my last medical test, the doctor set up another appointment for my eye surgery. Due to this situation, we decided to wait. In the meantime, we have had the opportunity to participate in various events, including camps of encouragement and fellowship plus the Requip conference organized by MSC.

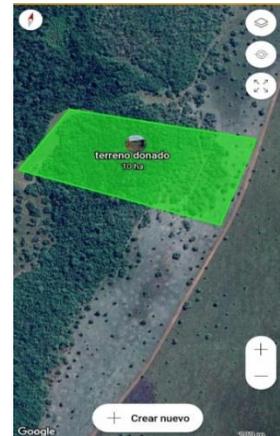

Now, the day has arrived, and tomorrow I will have my eye surgery. I am a little bit anxious, but with hope in the Lord, the surgery will be helpful to my vision. In the Lord's will, we plan to return to Bolivia at the end of November (if the doctor approves).

At present, the brothers back in Bolivia are doing a good job at repairing the second boat

called Libertador III for the trips next year. Also, we took legal possession of the ten-acre piece of donated land to be used for the rehabilitation center, and the radio station as well.

We always thank God and you for partnering with us in the ministry; as we have been reminded this past month that we are fellow servants with God. We have had such a privilege to be counted as the Lord's servants.

In Him,

Enoel and Leisa Suarez

Prayer Requests:

- for our health
- for complete repair of the boat
- for more workers to become involved in the ministry
- for completion of the missionary house and payments
- for the support of the local workers
