Competitors on the Reserve list are reminded of the following: Allocation of entries from the reserve's list from publication of the Official Entry List, up to the start of Signing on at 17.00 on Saturday 28th March 2026, will be as per the order on the entry list, which is in order of receipt. After this time allocation of reserves will take place on the hour every hour from the start of signing on, i.e. 18.00, 19.00, 20.00 and 21.00, and priority will be given to reserves

that are physically present at the allocated times, have attended and passed Noise Check and Scrutineering, have signed on as Reserve Entries at the relevant desk and have their marshal present and ready to sign on.

Allocation of reserves will then be in order of time of signing on, and NOT as per order on the Entry list. i.e FIRST COME, FIRST SERVED ON THE EVENING.

### **Maps**

All competitors will need the latest edition of Ordnance Survey maps 125 (1:50 000 series latest edition). The Basic Roamer Co. will be in attendance on the night and can supply maps and other navigation equipment if required.

### **Damage**

All competitors are reminded that it is their duty to report any damage caused to third party property, no matter how insignificant they feel it might be. This can be detailed on the Damage Declaration form and handed in at MC4. All competitors are required to visit damage control and hand in their damage declaration at MC4 in order to be classified as a finisher as detailed in NCR Chapter 13 Appendix 5 6.1- 6.6

### **Controls**

We are increasingly concerned at the driving behaviour of some competitors at manned controls. Arriving at a control at high speed with locked brakes can put the marshal at great risk. If the competing car also has headlight main beam and spot lights illuminated, this increases the risk as it impairs the vision of the marshal. We feel that we need to take action to ensure the safety of marshals. NCR Chapter 13 Appendix 4 2.10 Any control is considered to extend for 50m around the actual point at which Officials are making their records, unless clearly visible signs are displayed to define a different area. Driving Standards Observers will be present at some controls to ensure that the following procedures are adhered to.

1. Competitors must dip lights and extinguish spots at the 50m Board.
2. Reduce speed so that you can stop at the marshal's location without locking your wheels.
3. Leave the marshal's location only when the marshal is clear of the car.

Failure to comply with these instructions will result in penalties being applied as per NCR Chapter 13 Appendix 2 3.8
