Do you have ceiling mounted surgical lights? YES NO

Please check all that apply regarding the surgical suite:

Mayo stand Instrument table Extra IV poles for hanging leg prep

We kindly ask that no “dirty” procedures be performed the same day before any major surgery. The surgical suite should be properly cleaned the night before our arrival. All staff entering the suite should have a cap and mask on and foot covers should be worn over any outside footwear. A clean lab coat or scrubs should also be worn for staff entering the surgical suite.

Please note: A licenced veterinarian from your hospital must be on premises at all times during any surgical procedure we are performing in case of any emergency situations. Your hospital is also responsible for induction, anesthesia monitoring (unless otherwise arranged) and all associated drugs and medications as well as recovery of patients.

Fuzzypaws Mobile Surgery will provide post-operative discharge instructions for your hospital to give to clients and we will be available to consult on post-op management and assessment of post-operative radiographs at no additional cost.

Please contact us if you would like to discuss a case, to enquire about our surgical fees or if you have any general questions about our services.
