OS PONTOS CANTADOS E RISCADOS E A SUA SIGNIFICAÇÃO

É fora de qualquer dúvida que um dos pontos de maior significação na Lei de Umbanda, é o que conhecemos pelo valor dos seus pontos cantados e riscados.

Em toda a concepção que se fizer de uma religião, vamos encontrar na *Prece*, a condição máxima que se pode ter, para atingirmos, por meio de orações, as bênçãos divinas. Sendo a prece uma cerimônia mágica de primeira ordem por se tratar de um ato voluntário que se concebe pelo pensamento, através de um desejo de atingirmos os elevados planos espirituais até chegar ao Deus Supremo; esse ato consiste apenas no pronunciamento de palavras ditadas pelo coração, e, embora contendo sempre as mesmas frases, dá ao homem o direito de elevar-se perante os seres divinos.

Do mesmo modo os cânticos que são entoados numa sessão de Umbanda, são hinos de evocação a um determinado *Orixá* ou *Falange espiritual*. Esses cânticos ou *pontos* são as preces que se fazem quando, em determinadas condições, pedimos às entidades espirituais a proteção e o apoio de que tanto precisamos. Sob a vibração de *Umbanda*, bem como os *pontos riscados*, finalizam a magia redentora e amiga que nos acoberta de todos os malefícios. Essa é a maior *Mironga* da Umbanda, tal como

os cabalistas antigos, nas evocações da *alta magia*, utilizavam-se da ciência dos signos e símbolos mágicos para a concretização das suas finalidades.

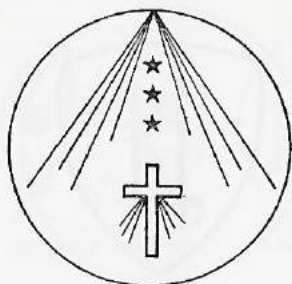

Na mesma Umbanda de hoje, tal como na Umbanda dos princípios do mundo, o princípio ativo e passivo da natureza redentora, está representada nos símbolos do esoterismo.

Adão representou o tetragrama humano, o qual ligado ao ternário representado pelo nome de Eva, formou o nome de Jeová, representando o tetragrama divino, que é a palavra mágica por excelência, segundo a concepção dos grandes cabalistas.

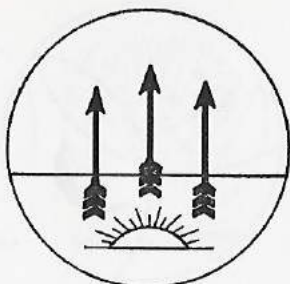

O triângulo de Salomão, significando o absoluto e revelado pela palavra, representa o Sol, que se manifesta pela sua luz radiante, provocando a manifestação, eficaz do seu calor. Esse triângulo ligado a outro, formando uma só figura, representada por uma estrela de seis raios, forma o que se conhece como o *signo sagrado do selo de Salomão*, ou estrela brilhante do macrocosmo. O pentagrama, que exprime domínio do espírito sobre os elementos materiais, dá ao homem os poderes do domínio sobre todas as manifestações espirituais. Assim, de posse dos mistérios que envolvem a representação dos signos cabalísticos representados nos *pontos* riscados nas entidades espirituais da Umbanda, estaremos convictos de alcançar grandes luzes, como verdadeiros iniciados nos dogmas e rituais das LEIS DIVINAS DA UMBANDA.
