

fun for everyone umpires included

Umpires are part of the game and are invited to be part of the banter, and share in the jokes.

*While being part of the fun
you get the job done*

- balanced and fair in decisions and interactions
- maintain netball terminology and hand signals, it is the common language of netball

*Instead of a spectator with a whistle
you are a facilitator of fun!*

Team white

additional differences to ordinary netball

Running and jumping

Running and jumping will be called as footwork.

Proactive advice

There is no ladder in walking netball, each game is just a game. Sometimes players may need to be reminded to calm down. Proactive advice can be given on multiple occasions to the same player unless it is clear that further action must be taken for the wellbeing of others.

Contest does not exist

Every contact on and off the ball must be called, especially off the ball.

Advantage

Do not use advantage until the competition is established; this may change later in the competition.

Advantage goal is the exception and should be used.
