About Company

Linear Pharma is a progressive pharmaceutical manufacturing company based in Rawat, Islamabad, committed to delivering quality, affordable, and reliable healthcare products. With a state-of-the-art cGMP-compliant manufacturing facility, the company focuses on scientific research, high quality raw materials, ethical practices, and modern manufacturing standards to ensure safe and effective medicines for patients. Backed by a diligent team of qualified professionals, independent quality assurance systems, and advanced production technologies, Linear Pharma continues to strengthen its role in Pakistan's healthcare sector while working toward broader national and international growth.

Welcome Messages

Welcome to Linear Pharma. Our vision is to build a trusted pharmaceutical company that serves healthcare professionals and patients with quality, reliability, and ethical business practices. We are committed to continuous improvement, professional excellence, and delivering products that create real value in the healthcare sector.

Mr. Arshad Awan
C.E.O.

At Linear Pharma, we believe that strong leadership, teamwork, and responsible operations are the foundation of sustainable growth. Our focus is to maintain high standards in every area of our business, from product quality to customer relationships. We warmly welcome all our partners, healthcare professionals, and stakeholders to be part of our journey.

Mr. Tariq Malik
Managing Director

Linear Pharma is dedicated to building strong connections with healthcare professionals through trust, service, and professionalism. Our sales and marketing approach is based on ethical promotion, clear communication, and long-term relationships. We welcome you to Linear Pharma and look forward to growing together with quality and commitment.

Mr. Anas Tariq
Director Marketing & Sales

Mission & Vision

Mission

To develop, manufacture and supply safe, effective, reliable and affordable medicines through ethical practices, cGMP-compliant operations and a strong commitment to quality, serving patients and healthcare professionals with care, trust and responsibility.

Vision

To become a trusted and progressive pharmaceutical brand of Pakistan, recognized for quality, compliance, innovation and patient-focused healthcare, while building sustainable growth in national and international markets.

Strategic Direction

Linear Pharma's strategy is to align quality, compliance, operational excellence and market development to build a sustainable pharmaceutical organization. We aim to strengthen our manufacturing capabilities, expand our product portfolio, improve systems and develop long-term partnerships with healthcare professionals, distributors and business partners in Pakistan and beyond.

Our Strategy

- Establish Linear Pharma as a trusted pharmaceutical brand in the domestic market while preparing for responsible international growth.
- Maintain a strong balance between quality, affordability and regulatory compliance in every product and process.
- Continuously improve manufacturing systems, technology, documentation and pharmaceutical know-how to support safe and consistent production.
- Expand the product portfolio across approved dosage forms to address evolving healthcare needs.
- Strengthen quality assurance, quality control and cGMP practices through trained teams, defined SOPs and continuous monitoring.
- Build ethical, long-term relationships with healthcare professionals, institutions, distributors and business partners.
- Develop a professional, merit-based and quality-conscious workforce through training, discipline and accountability.
- Optimize resources responsibly while supporting environmental awareness, operational efficiency and sustainable business growth.

Our Licences & Certificates

Linear Pharma operates under approved regulatory permissions for pharmaceutical manufacturing in Pakistan. The company holds a Drug Manufacturing Licence for formulation, covering multiple dosage forms including tablets, capsules, dry powder suspensions, cephalosporin products, liquid ampoule injectables, liquid vial injectables, and sterile dry powder injections.

The company's manufacturing facility has also been evaluated under current Good Manufacturing Practices (cGMP) by the Drug Regulatory Authority of Pakistan. These approvals reflect Linear Pharma's commitment to controlled manufacturing, proper documentation, process supervision, and compliance with required pharmaceutical standards.

In addition to regulatory manufacturing approvals, Linear Pharma is certified for ISO 9001:2015 Quality Management System and ISO 14001:2015 Environmental Management System. These certifications strengthen the company's focus on quality, responsible operations, environmental awareness, and continuous improvement across its manufacturing and management systems.

Our Quality Policy

At Linear Pharma, quality is the foundation of our identity and operations. We are committed to developing and manufacturing pharmaceutical products that are safe, effective, reliable and compliant with applicable regulatory, cGMP and quality management system requirements.

Our quality approach is built on ethical practices, trained personnel, controlled processes, accurate documentation, continuous improvement and responsibility toward patients, healthcare professionals, customers and society.

Linear Pharma is committed to:

- Manufacturing pharmaceutical products under controlled conditions in accordance with applicable regulatory requirements, cGMP principles and approved quality standards.
- Maintaining effective quality assurance and quality control systems covering raw materials, packaging materials, in-process checks, finished product testing and batch release.
- Using qualified suppliers, reliable raw materials, appropriate equipment, calibrated instruments and approved methods wherever required.
- Ensuring proper documentation, SOP compliance, batch record review, traceability and data integrity across manufacturing and quality operations.
- Recruiting on merit and continuously training employees to strengthen competence, discipline, accountability and quality awareness.
- Meeting the expectations of healthcare professionals, customers, partners and end users through consistent product quality, ethical conduct and responsive service.
- Improving systems through audits, risk-based thinking, complaint handling, corrective and preventive actions and management review.
- Optimizing resources responsibly and supporting environmental awareness and safe operational practices.

Our Manufacturing Facility

Linear Pharma operates a modern pharmaceutical manufacturing facility at Rawat, Islamabad. The facility is designed to support GMP-compliant manufacturing with dedicated areas for production, quality control, storage, packaging, and smooth operational workflow.

The facility is equipped to manufacture different pharmaceutical dosage forms, including tablets, capsules, dry suspensions, cephalosporins, ampoules, and vials. Each section follows defined procedures, trained supervision, and controlled processes to maintain consistency, safety, and quality throughout production.

At Linear Pharma, manufacturing is guided by responsibility and trust. From raw material handling to finished product packaging, every step is supported by quality systems and professional oversight, reflecting our commitment to reliable and affordable healthcare solutions.

Our Production Sections

Linear Pharma has dedicated production sections designed to manufacture a range of pharmaceutical dosage forms with care, consistency, and quality control. Our facility supports the production of tablets, capsules, dry powder suspensions, cephalosporin products, ampoules, vials, and dry injectable vials, enabling us to serve different healthcare needs through structured manufacturing operations.

Each production section follows defined procedures, controlled workflows, and professional supervision to ensure smooth processing from raw material handling to final packaging. With a focus on GMP-compliant practices, Linear Pharma maintains an organized production environment where quality, hygiene, and documentation remain central to every stage.

Our production capabilities reflect Linear Pharma's commitment to reliable pharmaceutical manufacturing. By combining trained staff, systematic processes, and quality-focused operations, we continue to deliver safe and dependable medicines for patients, healthcare professionals, and business partners.

Quality Control Department

Linear Pharma's Quality Control Department plays a vital role in ensuring that every material and finished product meets defined quality standards before approval. The department is responsible for testing raw materials, packaging materials, in-process samples, and finished products through structured analytical procedures.

Our QC process includes physical, chemical, and microbiological testing, supported by proper documentation, approved methods, and controlled laboratory practices. Each sample is carefully reviewed, tested, and evaluated to confirm compliance with required specifications before it is released for further processing or final dispatch.

At Linear Pharma, Quality Control works as a strong checkpoint in the manufacturing process. By maintaining accurate testing, reliable analysis, and clear reporting, the department helps ensure product safety, consistency, and trust in every medicine we produce.

Quality Assurance Department

At Linear Pharma, the Quality Assurance Department ensures that quality is built into every stage of manufacturing, from raw material approval to finished product release. QA monitors systems, procedures, documentation, and compliance to make sure each process follows approved standards and defined SOPs.

Before production begins, QA verifies that materials, equipment, areas, and batch documents are properly checked and approved. During manufacturing, the department supervises critical process controls, hygiene practices, in-process documentation, and adherence to GMP requirements to maintain consistency and product safety.

From starting point to end product, Linear Pharma's QA team works to ensure that every batch is manufactured under controlled conditions and released only after proper review. This department reflects our commitment to safe medicines, reliable processes, regulatory compliance, and continuous improvement in pharmaceutical quality.

Current Operations

Linear Pharma's current operations combine pharmaceutical manufacturing, quality systems, and market-focused supply operations. From its facility in Rawat, Islamabad, the company manages production across multiple dosage forms including tablets, capsules, dry powder suspensions, cephalosporins, ampoules, vials, and dry injectable vials.

Alongside manufacturing, Linear Pharma's sales and marketing operations support product availability, customer relationships, and market presence. The team works to connect healthcare products with relevant professionals, distributors, and business partners while ensuring that market needs are communicated back into the company's operational planning.

Every function, from production to quality review and commercial coordination, is aligned with one goal: to deliver reliable pharmaceutical products with consistency, responsibility, and trust. This integrated approach helps Linear Pharma serve the healthcare sector with both manufacturing strength and market responsiveness.

Future Plans

Linear Pharma aims to strengthen its position as one of Pakistan's leading pharmaceutical manufacturing facilities by expanding production capabilities, improving operational efficiency, and continuously upgrading its quality systems. With an established base in tablets, capsules, dry suspensions, cephalosporins, ampoules, vials, and dry injectable products, the company remains focused on increasing capacity while maintaining compliance, consistency, and product reliability.

Our future direction includes broadening the product portfolio, enhancing manufacturing processes, and investing in systems that support better quality, documentation, and regulatory readiness. In the near future, Linear Pharma also plans to expand into an Anesthetic Products Section, adding specialized products to its portfolio in line with healthcare needs, technical capability, and applicable regulatory requirements.

Alongside manufacturing growth, Linear Pharma plans to expand its sales and business development operations beyond Pakistan. By developing stronger partnerships, exploring export opportunities, and building a presence in international markets, the company aims to become a reliable pharmaceutical partner for healthcare sectors in other countries through safe, affordable, and trusted pharmaceutical solutions.
