

Where the “*Window to the Womb*” Began -  
Shari’s Legacy Lives on at [Unborn.Com](http://Unborn.Com) Through **SHINE!**

**Unborn.Com** is proud to carry forward over 40 years of Shari Richard’s dedication to excellence in ultrasound education through the **SHINE: “Sonography Hybrid Internet Nurse Education.** Designed for nurses at any stage—whether you are new to ultrasound, refreshing your skills, or completing competency—**SHINE** offers a unique blend of online learning and hands-on training with ongoing support. What makes **SHINE** truly different is our personal, high-quality approach. Hands-on sessions are limited to just four students per ultrasound system, all under RDMS supervision. This ensures focused guidance, meaningful scan time, and a more elevated learning experience. Training is available on-site or in Michigan. We also offer group discounts for centers enrolling multiple nurses and will match pricing from any qualified training program. This is more than a course—it’s an opportunity to grow, to gain confidence, and to carry forward a legacy of compassionate care.

### SHINE: Sonography Hybrid Internet Nurse Education:

**The SHINE On-line Re-fresher Series** will provide choices of monthly or yearly memberships. Sessions will discuss topics of interest, case studies, Q&A, recorded video lectures and webinars.

**The SHINE Re-fresher Hands-on** includes 3 days of hands-on training, and 6-month membership for the **SHINE** On-line Refresher Series.

**The SHINE Beginner Training** includes **Pre-Course Learning** which incorporates on-line and You-Tube instruction, PowerPoint, instructional manual, 5 days hands-on and 1-year membership for the **SHINE** On-line Refresher Series.

### Course Topics:

- Understanding your ultrasound system
- Review of anatomy and landmarks
- Transducer orientation and manipulation
- Imaging the adnexa
- Imaging multiply pregnancies
- Trans-vaginal techniques
- 2nd Trimester imaging techniques
- Image optimization & system instrumentation
- Recognize signs of a threatened pregnancy loss
- Signs of ectopic pregnancy vs an early gestation
- Recognizing RPOC following a chemical abortion
- Early pregnancy scanning skills from 4-8 weeks
- Review of policies, procedures, protocols
- Communicating with love and compassion

**Free** year registration for the **SHINE On-line Refresher Series** from Unborn.com with our referral and purchase of an Ultrasound System through Diagnostic Health Group (DHG). Visit [unbornultrasound.org](http://unbornultrasound.org) and use referral code UNBORN.COMU/S2026.
