## Fractional Senior-Level Paralegal Support for Texas Law Firms

*reliable. experienced. on demand. litigation ready.*

### Why Firms Choose TCP

- \* **Senior-level Judgment**  
TCP delivers the experience of a TBLS certified, seasoned paralegal minus the cost or commitment of hiring full-time.
- \* **Reserved Capacity Reliability**  
TCP provides reservable availability, with guaranteed weekly hours that keep your cases moving.
- \* **Collaborative, Not Competitive**  
TCP exists to support your current staff, providing overflow and backup during peak periods.
- \* **Courtroom Tested**  
TCP has experience with courts and procedures across Texas to the advantage of your clients.
- \* **Calm, Reliable, Deadline-Driven**  
TCP has a steady presence attorneys can trust when cases get busy, messy, or time-sensitive.
- \* **Systems Driven Efficiency**  
TCP has established workflows, organization, and a style of communication that can level up a practice without overstepping.
- \* **Litigation Focused Across Practices**  
Whether a matter arises in family law, estates and probate or commercial litigation, TCP is ready.

### About TCP

Texas Certified Paralegal Solutions was built on a simple belief: attorneys deserve senior-level support that is reliable, calm, and genuinely invested in their success. With 30 years of civil litigation experience, Melissa created TCP to give solo attorneys and small firms senior paralegal expertise. TCP supports attorneys across a wide range of civil practice areas. While many engagements involve family law, estates and probate matters, Melissa's background is rooted in complex civil and commercial litigation. This depth allows TCP to step confidently into contested, deadline-driven matters regardless of practice area. TCP operates on an optional reserved-capacity model, giving firms the ability to reserve dedicated case attention—not leftover availability. This structure allows Melissa to integrate seamlessly with existing staff, provide overflow and senior-level backup during peak periods, and maintain the level of responsiveness attorneys need when cases intensify. At its core, TCP is about partnership. Melissa's goal is simple: to make your practice run smoothly, your workload handled, and your clients cared for — all with the reliability and integrity that defines Texas Certified Paralegal Solutions.

### About Melissa & Ruby

The founder of TCP, Melissa is a degreed, TBLS Board Certified Paralegal in Civil Trial Law with a heart to support lawyers, their staff and clients. Melissa brings senior-level legal judgment wrapped in calm, steady efficiency — and right beside her (constantly 😊) is Ruby, her goldendoodle and full-time morale officer. Melissa handles the litigation support; Ruby handles the smiles, 24-7 companionship, and the occasional insistence on a walk break. Together, they're a balanced duo: Melissa is the organized, deadline-driven problem-solver attorneys rely on, while Ruby keeps the energy light and the workday grounded. Their partnership adds a human touch to even the busiest of caseloads.

When they're off the clock, you'll find them planning a trip or on a trip to the beach — Melissa recharging in the sun, Ruby living her best life chasing waves and making new friends. Their shared love of fresh air, sand, and simple joy fuels the upbeat, dependable energy they bring to TCP.

*Serving Texas attorneys with integrity, clarity, and reliability.*
