3/20/2026

Dr. Terrell has provided clinical supervision at Family Time since 2021, and her impact on our agency has been profound. She brings a powerful combination of doctoral-level expertise and years of 'in-the-trenches' experience, ensuring our providers have access to a wealth of practical and theoretical knowledge.

What our staff values most is her approachability; she balances warmth and humor with a fierce commitment to professional integrity and clear boundaries. Whether she is guiding a newcomer to the field or a seasoned therapist, her insights foster genuine growth. From leading professional development to providing a steady hand during critical incidents, Dr. Terrell is the gold standard for clinical leadership. We are a stronger, more capable agency because of her guidance.

Sincerely,

Tabitha Sprigler
Managing Director

"Serving families and protecting children since 1998."
