Strategic Asset Framework – NEXIUS-7 & ATARAXIUM Security Token

Zambelli International Consulting LLC hereby presents its consolidated asset structure, comprising a diversified and institutionally validated portfolio of **Receivables Accounts, Intellectual Property (IP), and structured financial assets**, integrated under the proprietary architecture of **NEXIUS-7** and tokenized through the **ATARAXIUM Security Token framework**.

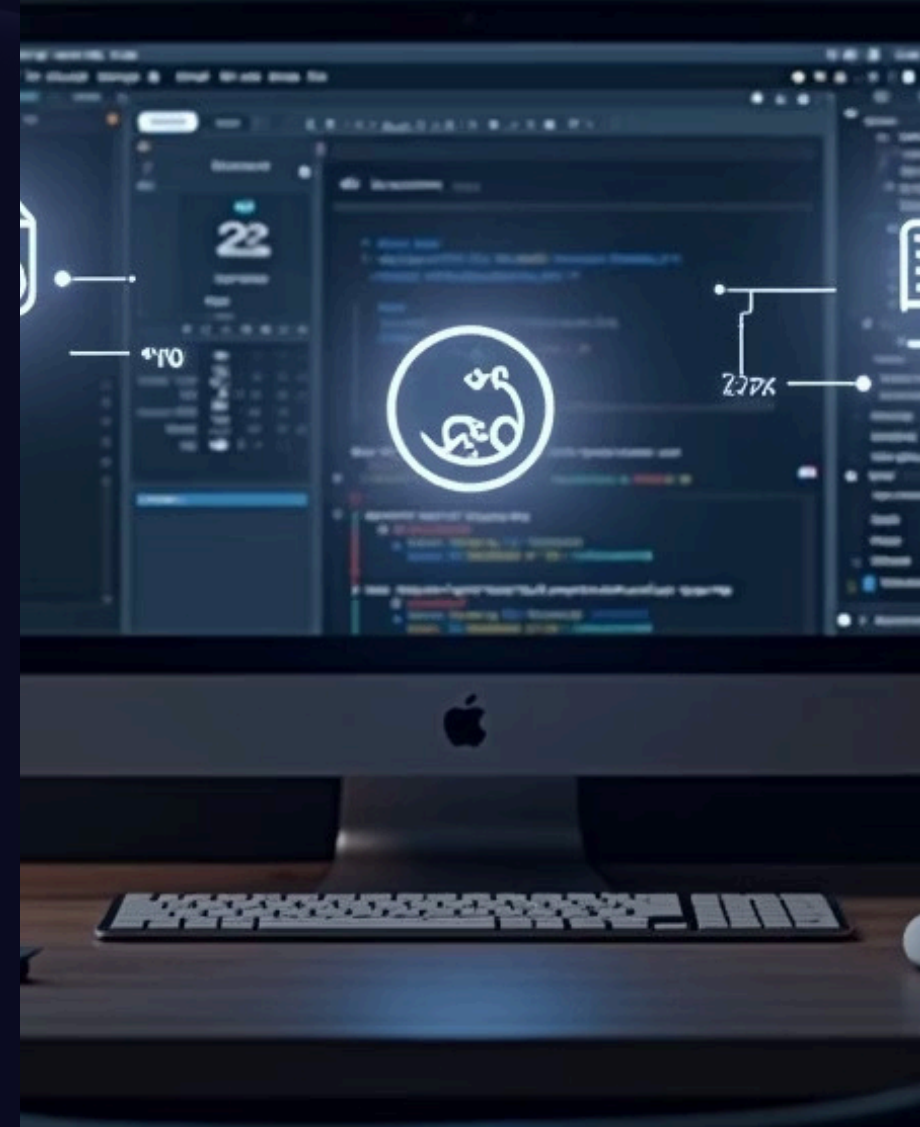

The aggregate value of these assets amounts to **USD 2.2799 Trillion (Two Trillion Two Hundred Seventy-Nine Billion Nine Hundred Million United States Dollars)**, reflecting a robust, multi-layered financial ecosystem designed for scalability, liquidity optimization, and cross-border capital deployment.

The receivables portfolio includes both audited and performance-linked assets, encompassing sovereign and private obligors across multiple jurisdictions, while the intellectual property component represents proprietary systems, strategic frameworks, and advanced technological platforms developed by the Firm. Together, these elements form a cohesive structure engineered to support securitization, tokenization, asset-backed financing, and institutional investment strategies.

The **NEXIUS-7 architecture** serves as the core operational and governance framework, ensuring compliance with international legal, financial, and regulatory standards. Concurrently, the **ATARAXIUM Security Token** enables the digital representation, fractionalization, and controlled transferability of underlying assets, leveraging blockchain infrastructure to enhance transparency, traceability, and investor access.

This integrated model positions Zambelli International Consulting LLC at the forefront of next-generation financial structuring, combining legal precision, financial engineering, and technological innovation to deliver sustainable value and institutional-grade investment opportunities.

Structured Assets. Engineered Intelligence. Global Value.
