# SELFIE BOOTH PACKAGES

A selfie photo booth is a modern twist on the traditional photo booth, designed to cater to the self-portrait trend driven by smartphones and social media. These booths are often equipped with high-quality cameras, customizable backdrops, and an array of props to enhance the photo-taking experience. Users can easily control the booth via touchscreens, selecting various filters and effects to personalize their photos. The convenience of instant digital sharing is a key feature, allowing users to immediately upload their pictures to social media platforms or receive them via email. Selfie photo booths are popular additions to events like weddings, parties, and corporate gatherings, providing entertainment and creating memorable keepsakes for guests. As technology advances, these booths continue to evolve, incorporating features like augmented reality, green screens, and even GIF creation to offer a unique and engaging experience.
