LEADERSHIP & ACTIVITIES

- **Cyber Security Team** — Active member
- **Varsity Swimming** — 3 years

COMMUNITY SERVICE

- **Volunteer** — Bike Mechanic
 - Repaired and maintained bicycles for community members
- **Volunteer** — Kare4Kids (QA Support)
 - Assisted in quality assurance for organizational projects

SKILLS

Programming • Robotics • UI/UX Design • Application Development Problem Solving • Team Leadership • Analytical Thinking

PROFILE

STEM-focused high school student with a strong background in computer science, robotics, and competitive programming. Demonstrates advanced technical skills through national and international competitions, long-term involvement in robotics education, and real-world experience in UI/UX design and application development. Combines academic rigor with leadership in team-based engineering environments.

EXPERIENCE

Zero Robotics Competition — 1st Place

- Programmed a robot operating aboard the International Space Station (ISS)

RoboCup Junior — 2nd & 3rd Place (Team Captain)

- Led team in international robotics competition
- Coordinated programming, strategy, and execution

Storming Robots (Robotics Program)

- Continuous participation since 4th grade
- Developed advanced robotics and programming skills

UI/UX Developer — Sharp Strategies

- Designed user interfaces and contributed to application development
- Worked on real-world software projects

EDUCATION & ACADEMIC HIGHLIGHTS

- **Advanced Coursework:**
 - AP Computer Science A (Score: 5)
 - AP Calculus BC (in progress)
 - AP Chemistry (in progress)
 - AP English Language (in progress)
- **Competitive Programming:**
 - USACO participant
 - ACSL Finalist (3 consecutive years)
