The Artistry of Carpet

Artisan Excellence by Global Weave

COMPANY PROFILE

GLOBAL WEAVE

Every carpet we make carries the weight of generations — the patience of a craftsman's hands, the memory of a loom at dawn, and the ambition to bring that beauty into the spaces where people live, work, and gather.

Not just flooring. A reflection of who you are.

OUR VISION

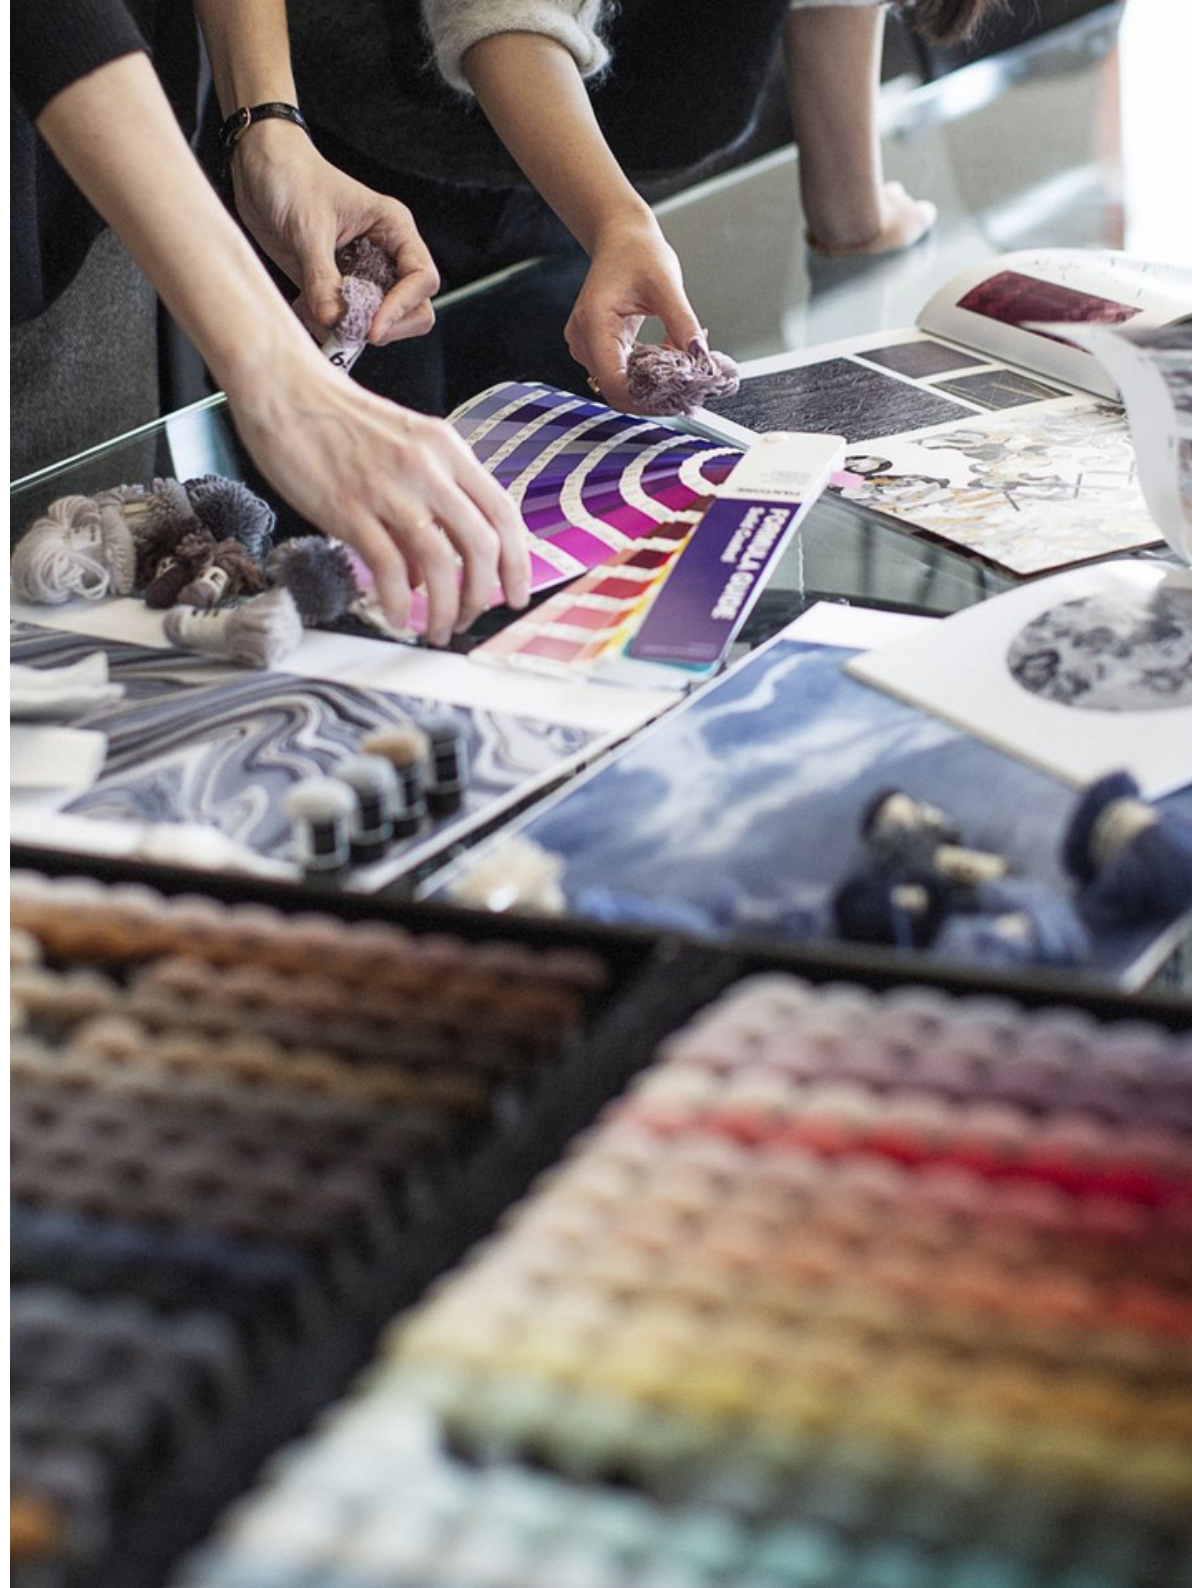

To be the most trusted name in luxury soft flooring across global markets — where every product reflects superior craftsmanship, timeless beauty, and innovative design.

We envision spaces where floors are not just surfaces, but expressions of identity and refinement.

OUR MISSION

To deliver world-class soft flooring solutions through a unique blend of domestic expertise and international imports — offering every client the perfect balance of quality, customization, and value.

Excellence is not a standard we aim for. It is the only way we know how to work.

INDIA

Headquarters & Manufacturing Hub

India is where our story begins and where our soul lives. For generations, Indian craftsmen have turned raw fibre into art — and that tradition runs through everything we make. From our manufacturing hub, we supply both the domestic market and large-scale international exports, drawing on skills that no machine can fully replicate.

ITALY

Design & Luxury

Italy has given the world a design language that is copied everywhere and matched by few. Our Italian presence connects us to Europe's finest carpet and rug makers — bringing that unmistakable sensibility for proportion, material, and beauty into our collections. When you want something that feels European in its refinement, this is where it comes from.

USA

International Markets & Trade

The North American market demands performance, precision, and global standards. Our US presence keeps us connected to leading hospitality and commercial clients, while giving us direct insight into the trends shaping interiors worldwide. It is also how we serve international projects that require global-grade supply chains and local accountability.

WHY CHOOSE US

We have been asked this question many times. The honest answer is that we do not ask you to take our word for it — we let the work speak. But if you want reasons, here they are.

Unique Collections

Exclusive domestic and imported products not available anywhere else — rare textures, patterns, and fibres curated for the discerning buyer.

Bespoke Customization

Every project is unique. We offer full customization in size, color, pile, pattern, and material to match any design vision.

Value Without Compromise

Premium quality should not mean unreasonable prices. We offer the best product at the most competitive price — always.

Global Sourcing

India's craft heritage. Italy's design mastery. America's commercial precision. We bring the best of three continents to your door — so you never have to choose between provenance and performance.

HAND KNOTTED

The pinnacle of weaving artistry knot by knot.

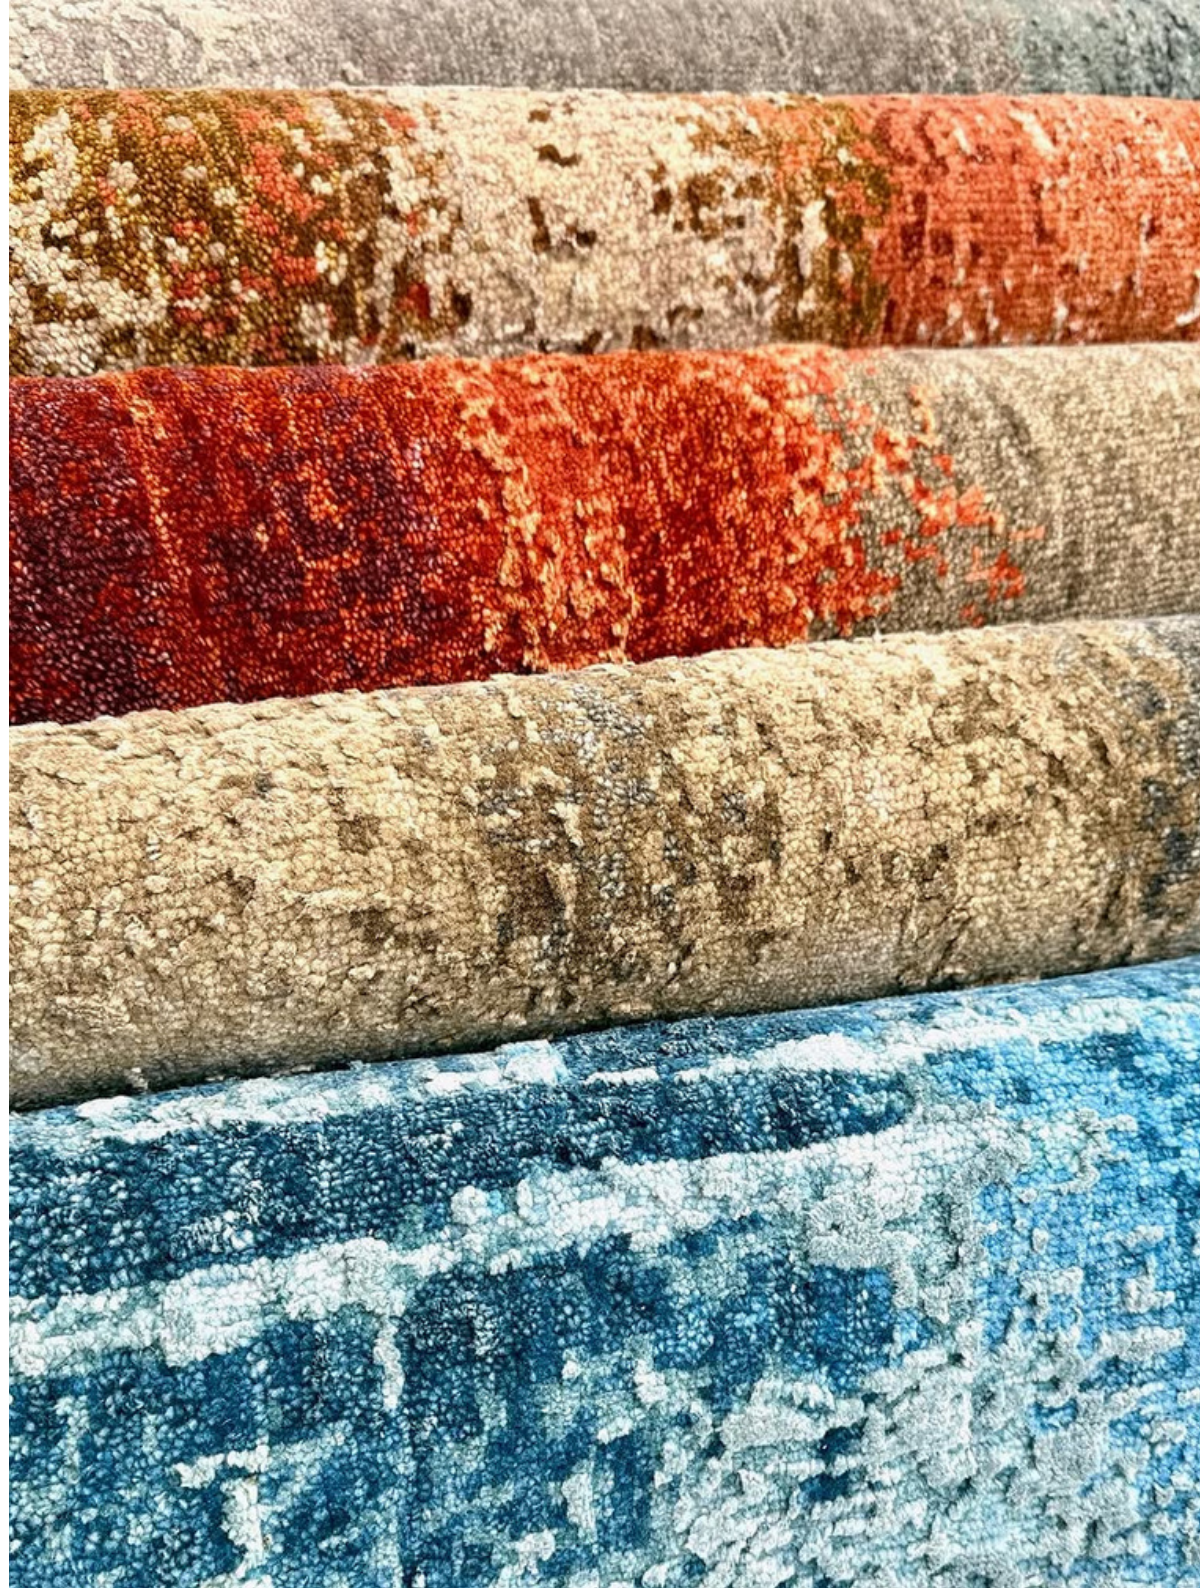

At Global Weave, our hand-knotted rugs are woven as timeless expressions of artistry and luxury. Crafted in the heart of rural India by master artisans, each piece embodies generations of craftsmanship, intricate detailing, and refined character.

Using the finest hand-spun wool and silk, our collections are celebrated for their rich texture, depth, and enduring elegance. From quiet contemporary spaces to grand classical interiors, every rug is designed to elevate its environment with warmth, sophistication, and soul.

With bespoke possibilities in scale, color, and composition, each Global Weave creation is uniquely tailored — a true statement of timeless design.

AVAILABLE IN

WOOL • WOOL & SILK • SILK

HAND TUFTED

Precision craftsmanship — engineered for the design-forward interiors.

Hand-tufted rugs become expressions of texture and form crafted through sculpted surfaces, innovative yarn blends, tonal dyeing, and layered techniques.

Balancing artisanal warmth with creative versatility, each piece brings rich character, tactile depth, and contemporary luxury to bespoke interiors.

Every hand-tufted rug is developed as a refined design statement where craftsmanship meets innovation through intricate carving, varied pile heights, organic textures, and custom color compositions. Our hand-tufted collections are tailored to translate design concepts into immersive flooring experiences that elevate hospitality, commercial, and residential environments.

AVAILABLE IN

WOOL • WOOL & ART SILK • BOTANICAL SILK

HAND WOVEN

Natural intelligence in every thread — rooted in tradition.

Hand-woven rugs embody timeless craftsmanship meticulously created by skilled artisans through traditional weaving techniques that celebrate precision, texture, and authenticity.

Defined by their subtle detailing, natural irregularities, and refined construction, each piece carries a sense of understated elegance while offering durability and tactile richness suited for sophisticated interior spaces.

Through thoughtful material selection, intricate weave structures, and contemporary design interpretations, our hand-woven collections bridge heritage craftsmanship with modern aesthetics creating bespoke rugs that bring warmth, depth, and enduring character to hospitality, commercial, and residential environments.

AVAILABLE IN

JUTE • PET • WOOL • TENCIL

CUSTOM PROJECTS

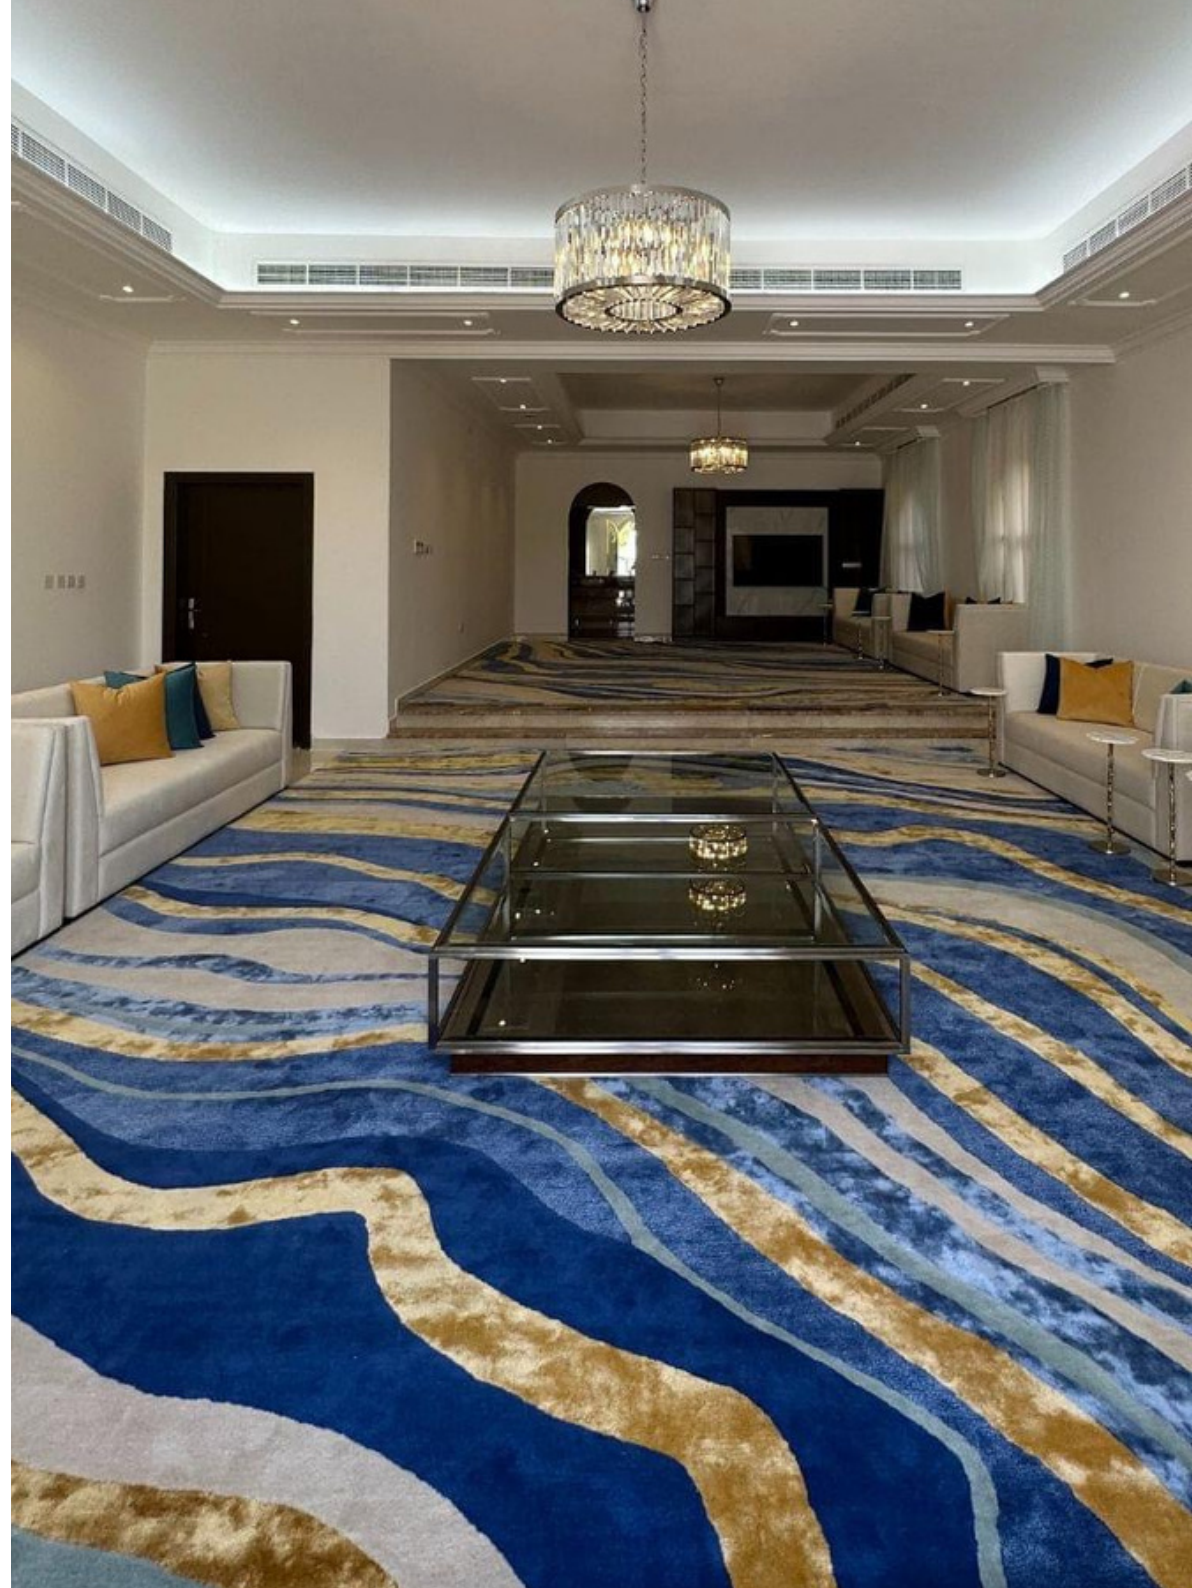

Your vision, realised — from first sketch to final installation.

The world's most distinctive interiors are defined not by what is chosen from a catalogue, but by what is made for them alone. Global Weave's Custom Projects division was established precisely for this purpose — to translate the creative vision of architects, interior designers, and project consultants into singular textile works produced to exacting specification. We work from CAD files, mood boards, material swatches, or conversation.

Our technical team translates intent into a precise production brief, specifying yarn composition, construction technique, pile height, colour palette, and finish. Sampling, lab dips, and drawloom trials are offered as standard. Custom Projects encompass all three of our core construction methods, with dedicated project management from briefing to delivery.
