

Hello,

Thank you for choosing WinPilot.

Here are the instructions to download and install Microsoft Office 2024 Standard for Mac:

[Office 2024 Standard for Mac Installation and Activation guide](#)

Please note that the activation procedure is included in the guide. A separate product key is not required, as the license will be embedded into your account once the installation and activation are successfully completed.

Important note: Compatible with macOS 13 or later. If you are using macOS 11.0, 10.15, or 10.14, please contact us so we can provide you with an alternative download that will work on your Mac.

Need Help? If you encounter any activation issues, please reply to this email with a photo of the activation error, and we'll assist you promptly.

Give Us 5 Stars: You can support us by leaving a review on TrustPilot! Our team works hard to provide the best service, and we would truly appreciate your feedback.

Thank you for trusting WinPilot.

Best regards,

Mike
