"I have Boldmethod's other courses, and this is another great one. I recently transitioned to a new model of aircraft and have struggled a bit with smooth landings. The course has already given me some new perspectives and is refreshing my training. I'm pleased with the results so far, and even my wife noted the significant improvement!" - Nov 30, 2017

"Anything that Boldmethod produces, be it a training course, an online quiz, an interesting article or anything else aviation related...it is simply "best in class" from my personal experience. I began using their website and the related courses (just purchased "Landings" WOW!) several years ago and now depend on Boldmethod more than King Schools, Sporty's or any other training material. THE BEST AVIATION WEB SITE. EVERYTHING IS FIRST CLASS QUALITY."

Do you know more about aircraft engines than your average passenger Plus, can you log PIC time in the clouds if you aren't instrument rated 08/26/2019 (4 found)

"I have Boldmethod's other courses, and this is another great one. I recently transitioned to a new model of aircraft and have struggled a bit with smooth landings. The course has already given me some new perspectives and is refreshing my training. I'm pleased with the results so far, and even my wife noted the significant improvement!" - Nov 30, 2017

"Anything that Boldmethod produces, be it a training course, an online quiz, an interesting article or anything else aviation related...it is simply "best in class" from my personal experience. I began using their website and the related courses (just purchased "Landings" WOW!) several years ago and now depend on Boldmethod more than King Schools, Sporty's or any other training material. THE BEST AVIATION WEB SITE. EVERYTHING IS FIRST CLASS QUALITY."
