Introduction

I am a self-taught artist and writer, passionate about creation. I offer my services as a portraitist and illustrator: whether for a family portrait, a special gift or an illustration of a precious moment. I listen to your desires to create a piece that looks like you, and that resonates with your emotions. Each project is a new adventure where I strive to capture the personality and story of each person with care. Do not hesitate to contact me to discuss your project and see how I can bring your ideas to life.

Together, let's restore value to authenticity and the personal in a world of overconsumption, too often formatted.

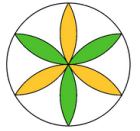

Values

I am committed, as much as possible, to an eco-responsible and humanist approach, through the choice of my products, the messages that I seek to convey, as in my daily actions.

An alternative to all things digital, to mass production, to the disposable, to the impersonal, through traditional craftsmanship, for a clientele of individuals and professionals who wish to acquire a unique and respectful (eco-responsible) product, from human to human, with all the added value that this represents.

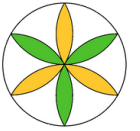

Catalog

Discover a unique artistic collection where each creation is designed to offer you an experience that is both personal and eco-responsible.

This catalog brings together a range of portraits and illustrations in several styles to capture the essence of your most cherished memories, but also customizable objects, all designed with environmentally friendly materials. Whether you are looking for the elegance of a framed portrait or the authentic touch of a personalized accessory, each piece is made to enrich your daily life while honoring sustainable and sincere values.

Portraits

I create custom portraits, by hand, and printed on eco-friendly media. Why printed? For reasons of durability (the portrait does not deteriorate over time, is more easily preserved and moved), for the modern, decorative side, and for practical reasons for the client who can hang it directly at home, without additional constraints.

I offer a variety of styles ranging from traditional black and white (graphite or BIC pen for originality) to humorous colored portraits, or "comic book" style.

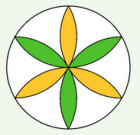

FSC wood print

For a very authentic “raw” rendering with a clean edge finish. Natural, light and solid. Unique and durable result.

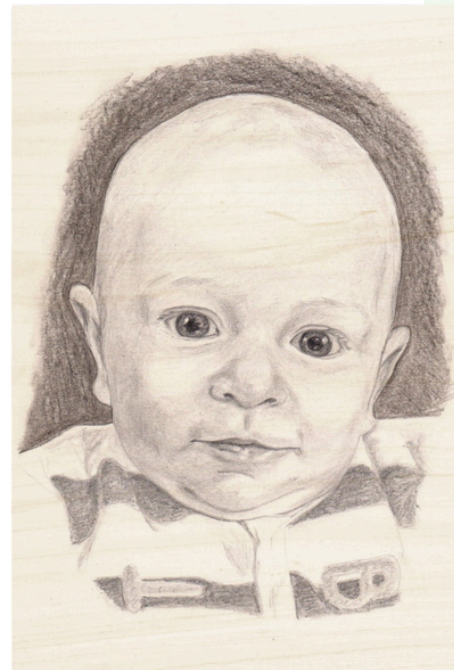

Very good rendering with high contrast black and white portraits. Absorbs colors: the rendering will therefore be different from the original, but will highlight the grain of the wood, offering a beautiful texture.

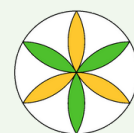

BIC pen portrait for modernity and originality

Traditional style portrait graphite black and white

"Comic book" style portrait in alcohol marker

Canvas print

Portraits printed on canvas and framed canvas.

Enhance your portraits with elegant and timeless finishes.

My canvas prints, with or without a frame, offer a unique visual and tactile experience. The rich texture of the canvas enhances every detail of the image, while the frame adds a touch of sophistication for an even more refined rendering.

Frames made of wood from responsible sources (FSC certified).

BIC pen portrait for modernity and originality, framed canvas

"Comic book" style portrait, alcohol marker, unframed canvas

Traditional style portrait graphite black and white, framed canvas

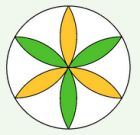

Museum quality poster print in wood frame

Timeless elegance at the service of art.

Give your portraits a refined presentation with these framed posters. Made on high-quality paper, they combine exceptional artistic rendering with durable and environmentally friendly materials.

Thick, acid-free paper, designed to preserve works of art without yellowing or fading over time.

Framed in durable pine wood. Unbreakable Plexiglas.

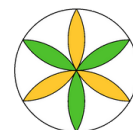

BIC pen portrait for modernity and originality

Traditional style portrait graphite black and white

"Comic book" style portrait in alcohol marker
