Disclaimer:
This product is manufactured using 3D printing technology. Due to the inherent properties of 3D printed materials, the product may be more fragile than traditionally manufactured items. It is not designed to withstand impact from drops or rough handling. To ensure optimal performance and longevity, please handle the product with care. MarQuest is not responsible for damage resulting from misuse, accidental drops, or improper handling.

Please note: The design of this product is a registered design and is protected under applicable intellectual property laws. Unauthorised reproduction or imitation is strictly prohibited.

Waste Disposal Information:
The Ekahau Sidekick 2 Mount is made from PETG (Polyethylene Terephthalate Glycol-modified).

Disposal Recommendation:
PETG is generally not accepted in recycling schemes due to its distinct properties (glycol content, different melting point) that can contaminate standard PET streams. If reuse is not feasible, we advise that the PETG must simply be disposed of with the general (non-recyclable) waste.

Environmental Consideration:
Please dispose of responsibly and avoid littering.
For the most accurate and up-to-date guidance, consult your local council's waste disposal guidelines.
