

Technical Data Sheet

Universal Conduit AP Drop Mount
SKU: MQ-DROP-MNT

The Universal Conduit AP Drop Mount is an Access Point Mount that is designed to be hung using 25mm conduit and a conduit nut, dropped from a ceiling using common methods such as uni-strut.

This provides a hanging method and cable management in one package as the cable can be threaded through the conduit directly into the mount.

The mounting surface provides various mounting holes to support a range of different Access Point brands from the likes of Cisco, HPE Aruba and Extreme and more.

A captive screw provides a locking mechanics on supported access points. The mounting box can be retro fitted with a T-bar plate to provide mounting for any access Point that supports T-bar mounting (additional T-bar mount required).

The box is hinged for easy access and is held in place using a thumb screw.

Features

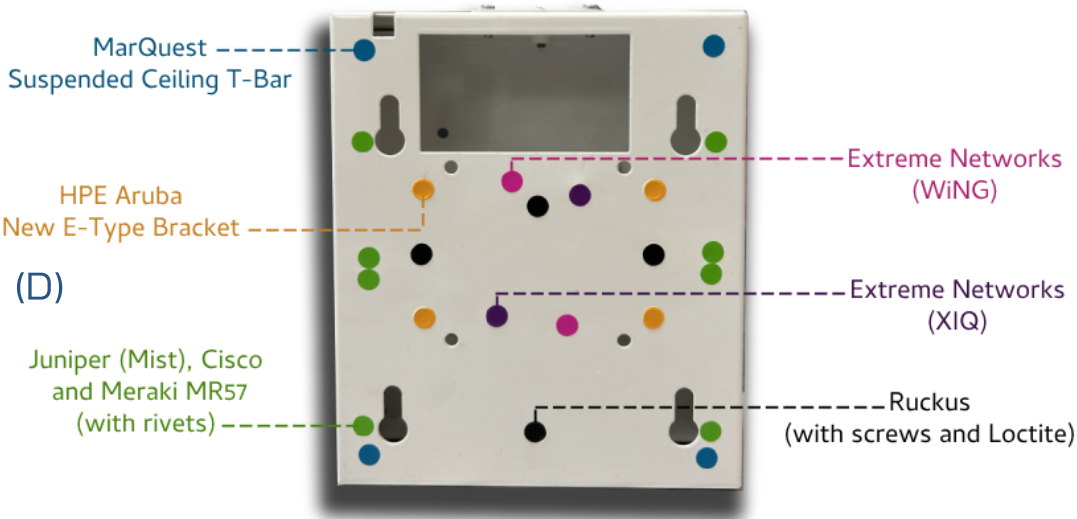

Material: Zintec (Zinc Coated Metal)

Size: 15.1cm (W) x 5.2cm (H) x 17.7cm (D)

Weight: 770g

Colour: White

Supported Access Point Vendors: HPE Aruba, Extreme Networks, Rukus, Juniper (Mist), Cisco and Meraki
