RETINOID

AlphaRet Overnight Cream

(mild-to-moderate photodamage)

OR

AlphaRet Clearing Serum

(can be substituted as the retinoid at night
if oiler, blemish-prone skin)

As you would with any changes to your skincare regimen, we recommend adding one new product at a time, slowly and gradually adding onto your regimen as your skin adjusts.

Sunburn Alert: AlphaRet Overnight Cream and AlphaRet Clearing Serum contain an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using these products and for a week afterwards. **Caution:** AlphaRet Overnight Cream and AlphaRet Clearing Serum contain retinoid in a topical form. If you are pregnant, lactating or planning to become pregnant, consult a physician before use. If using more than one exfoliating product, irritation may occur. For complete Usage Instructions, Sunburn Alert and Caution Statements, see product packaging.
