RETINOIDS

AlphaRet Overnight Cream

As you would with any changes to your skincare regimen, we recommend adding one new product at a time, slowly and gradually adding onto your regimen as your skin adjusts.

Sunburn Alert: AlphaRet Overnight Cream contains an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.

Caution: AlphaRet Overnight Cream contains retinoid in a topical form. If you are pregnant, lactating or planning to become pregnant, consult a physician before use. If using more than one exfoliating product, irritation may occur. For complete Usage Instructions, Sunburn Alert and Caution Statements, see product packaging.

EYE PRODUCT ADD-ONS

Instant Effect Gel EYE

to reduce the appearance
of under-eye bags

InterFuse Treatment Cream EYE

to provide a smoothed and softened
appearance

EyeMax AlphaRet Overnight Cream

for dryness, puffiness, crepiness
and under-eye darkness

ENHANCING ADD-ONS

Even Tone Correcting Serum

to help improve the appearance
of skin tone, including redness

Techno Neck Perfecting Cream

to visibly improve aging skin of the
neck and décolleté

Caution: EyeMax AlphaRet Overnight Cream contains retinoid in a topical form. If you are pregnant, lactating or planning to become pregnant, consult a physician before use.
