Mayor Mo Baydoun Launches Online Portal to Recruit Top Talent for Dearborn Heights Administration

Dearborn Heights, MI — Today, Mayor Mo Baydoun announced the launch of a new online application portal designed to attract qualified, community-minded individuals interested in serving within the City of Dearborn Heights administration. The initiative marks an important step in Mayor Baydoun's broader transformation process, which is focused on recruiting a highly qualified, forward-thinking team to lead Dearborn Heights into its next chapter of growth and service.

Through this new portal, individuals can apply for employment and appointed positions within city government. The portal will remain open through Wednesday, November 20, 2025, at www.DearbornHeightsTransformation.com

"Dearborn Heights is at a pivotal point in its history," said Mayor Baydoun. "We are seeking the best and brightest individuals to help move our city forward. This is about building a government that operates with transparency, accountability, and efficiency, and one that truly delivers for our residents."

This initiative demonstrates Mayor Baydoun's commitment to open and inclusive governance. The transformation process will continue later this week with the formal announcement of the Dearborn Heights Transformation Team and the Citizens Advisory Group, two groups of community leaders and professionals who will advise on improving city operations and identifying opportunities for long-term progress.

"We are working to set a new standard for local government," **Baydoun added.** "This process ensures that city government and the citizens it represents have the opportunity to contribute in a collaborative way to the success and future of Dearborn Heights."
