

EKTA PORTABLE 20-22 BPM

HEAVY DUTY PET BOTTLE AUTOMATIC FILLING & CAPPING MACHINE

Compact and heavy-duty automatic filling & capping machine designed for PET bottles and carbonated soft drinks. Operates on gravity filling principle with accurate, foam-controlled and spill-free filling.

Key Features:

- Output 20-22 BPM
- $\pm 1\%$ filling accuracy
- No Bottle – No Filling system
- Self-centering reciprocating nozzle
- Adjustable nozzle to reduce foaming
- SS matt finish heavy-duty body
- Pneumatic bottle stopper system
- Variable frequency AC drive
- Easy operation & low maintenance

Technical Highlights:

- Fill Range: 5 ml – 2000 ml
- Output: 1200-1300 bottles/hour
- Power: 1 HP / 415V / 50 Hz
- Air Pressure: 6 bar

Ideal for: Carbonated soft drinks, beverages & PET bottle applications.
