

### **The EKTA Heavy Duty 4 Bottle Manual Goti/Goli Soda Machine**

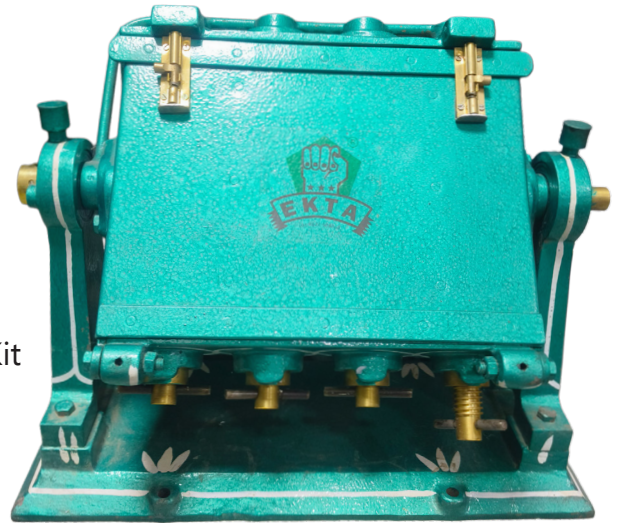

is built for high-demand soda counters, offering faster serving with increased productivity. It is compatible with both PET and glass Goti/Goli bottles, making it suitable for traditional soda selling as well as modern retail environments like food courts and vending shops.

This machine operates completely without electricity, making it economical, easy to install, and ideal for use in any location. Manufactured from heavy-duty MS and brass material, it ensures strong construction, excellent durability, and smooth long-term performance. The machine comes with a complete accessory set including regulator, cock, pressure gauge, pipeline, and spares kit for safe and efficient soda dispensing.

The 4-bottle design allows multiple simultaneous fillings, reducing waiting time and improving customer service speed.
