

AUTO STICKER LABELLING MACHINE – EKTA

Ekta Automatic Sticker Labelling Machine is a high-speed, heavy-duty solution designed for accurate and appealing label application on round bottles of various sizes. It helps save time, reduce labour, and improve overall packaging presentation. Suitable for Food & Beverage, Pharmaceutical, and Cosmetic industries.

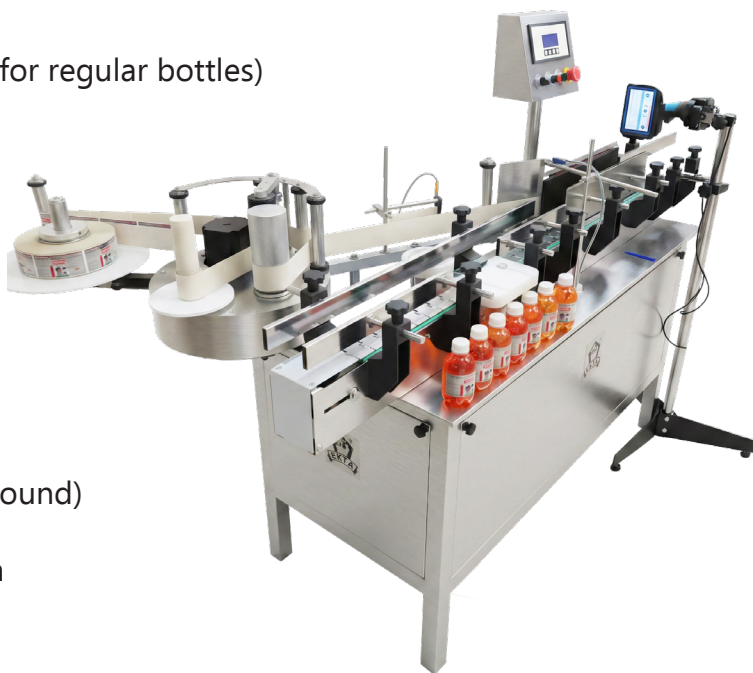

The machine is built with SS 304 material and features a smooth conveyor system that guides bottles to the label dispenser, where labels are firmly pressed by rollers for perfect alignment and finish. User-friendly control panel ensures easy operation and speed adjustment.

Specifications:

- Speed: 20 – 80 bottles/min (approx. 40 BPM for regular bottles)
- Voltage: 220V AC / 5 Amp
- Conveyor Length: 5.7 ft
- Machine Size: 80 x 45 x 50 inches (L x B x H)
- Weight: Approx. 180 kg
- Motors: 3 motors (0.5 HP & 0.25 HP)
+ Stepper Motor 740W

Key Features:

- High-speed accurate labeling
- Suitable for different bottle sizes & shapes (round)
- Heavy-duty SS 304 construction
- Smooth conveyor with pressing roller system
- Adjustable speed control
- Easy & user-friendly control panel
- Ideal for partial & full wrap labeling

Perfect for businesses seeking efficient, consistent and professional labelling output
