

BRUSHING UNIT FOR BOTTLE – SS (HEAVY DUTY)

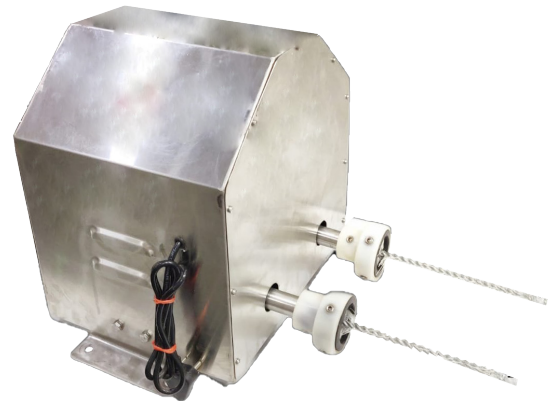

Full Stainless Steel (SS) covered heavy-duty Ekta Brushing Unit specially designed for thorough cleaning of Goli Soda bottles and soft drink glass bottles. Equipped with a powerful ½ HP motor, this unit ensures efficient removal of dirt, residue and impurities from both inside and bottle mouth area. Ideal for beverage plants, bottling units and glass bottle reuse operations.

Key Features:

- Full Stainless Steel (SS) body & cover for hygiene and long life
- Heavy-duty ½ HP motor for continuous operation
- Specially designed for Goli Soda & soft drink glass bottles
- Mouth cleaning brush system for deep and effective cleaning
- Can clean 4 bottles simultaneously, saving time and labour
- Efficient removal of dirt, dust and sticky residues
- Smooth, stable and vibration-free performance
- Easy to operate and low maintenance
- Suitable for small to medium-scale beverage units

Applications:

Goli soda plants, soft drink bottling units, beverage processing units and glass bottle cleaning operations.
