

## EKTA CAPPER – TABLE MODEL

Ekta Table Model Capper specially designed to fit plastic caps securely on bottles with uniform pressure, ensuring leak-proof sealing. Its compact table-top design makes it ideal for small to medium bottling operations where accuracy, ease of use and space-saving are important.

### Key Features:

- Table-top design for easy and convenient operation
- Accurate fitting of plastic caps on bottles
- Ensures leak-proof sealing
- Uniform cap tightening for consistent results
- Compact structure – requires less space
- Easy to operate and low maintenance
- Durable construction for long working life
- Suitable for various bottle sizes

### Applications:

Soft drink bottling units, water plants, juice & beverage industries and general liquid packaging operations.
