

## EKTA PORTABLE LIQUID FILLER – 4 HEAD WITH STAND

Ekta Portable Liquid Filler (4 Head with Stand) is a versatile and efficient filling solution suitable for syrup, juice and other free-flow liquids. Built with heavy-duty food-grade SS 304, this machine ensures hygienic operation, durability and consistent filling accuracy. Its portable design and simple controls make it ideal for small to medium production units.

The machine is equipped with a latest high-quality timer for precise filling and an On/Off power switch for easy operation. The SS stand is specially designed to hold two plastic containers at a time, improving productivity and operator convenience.

### Key Features:

- 4 Head Filling System for faster filling output
- Heavy Duty SS 304 Construction (Food Grade)
- Portable, Compact & Space-Saving Design
- Simple & Easy to Operate – no skilled manpower required
- Latest High-Quality Timer for accurate and uniform filling
- On/Off Switch for Power Supply Control
- SS Stand Provided to place two containers simultaneously
- No Maintenance & Low Power Consumption
- Ideal for Syrup, Juice & Other Free Flow Liquid Applications
