

EKTA PORTABLE LIQUID FILLER – SINGLE HEAD

Ekta Portable Liquid Filler (Single Head) is a compact and efficient filling solution designed for syrup, juice and other free-flow liquid products. Manufactured with heavy-duty SS 304 construction, this machine ensures hygienic operation, durability and consistent filling accuracy. Its simple design makes it easy to operate, even for unskilled operators.

Equipped with a latest high-quality timer and a convenient On/Off power switch, the machine offers smooth, reliable and maintenance-free performance, making it ideal for small to medium-scale production units.

Key Features:

- Suitable for Syrup, Juice & Other Free Flow Liquids
- Single Head Filling System for accurate and controlled filling
- Heavy Duty SS 304 Construction (Food Grade)
- Portable & Compact Design – easy to move and install
- Simple & Easy to Use Operation
- Latest High-Quality Timer for precise filling control
- On/Off Power Switch for user convenience
- Low Power Consumption & No Maintenance Required
- Ideal for Small & Medium Production Units
